	<p>On April 6, 2010, the Manitoba Child Care Program (MCCP) was informed of an incident, which occurred on March 30, 2010, whereby three two-year old preschool children left the child care centre (the centre) unescorted by any staff member. It was further reported by an individual that she observed the three children without any accompanying adult, in the parking lot at the front of the building. This individual subsequently brought them back into the centre. It was reported that staff were not aware that these children had left the centre with the result being that these children remained unsupervised outside for approximately 10 minutes.</p> <p>In reviewing the centre's Record of Child Care Employees, it was also noted that the licensee currently fails to meet the requirements for two-thirds trained staff and one trained staff per group.</p> <p>This is a violation of <i>The Community Child Care Standards Act</i> section 3(1)</p> <p>Responsibility to provide proper environment Every person providing child care shall at all times provide an environment that is conducive to the health, safety and well-being of the children.</p>
