

# Environment Act Licence

Manitoba  
Environment

Licence No. 1520

Issue Date DECEMBER 10, 1991

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

## **K-LINE ENTERPRISES LTD.; APPLICANT**

The following limits, terms and conditions shall be complied with by K-Line Enterprises Ltd. in connection with the operation of a dry fertilizer holding and blending facility located on the West half of NW 1/4 Sec.13, Twp.2, Rge. 5 WPM, in the Rural Municipality of Stanley in the Province of Manitoba.

### **AIR EMISSIONS - RESTRICTIONS**

1. The Applicant shall limit the emission of particulate matter from the operation to such an extent that airborne particulate matter from any part or process of the operation does not at any time exhibit an opacity in excess of 5 percent at any point past the property line of the operation.

### **WATER PROTECTION - REQUIREMENTS**

2. The Applicant shall ensure that all surface areas where fertilizer products are unloaded, loaded, blended, transferred or otherwise handled are properly constructed of impermeable materials and are graded or curbed such that all product spillage is contained so as to prevent any contamination of ground or surface waters.
3. The Applicant shall ensure that all fertilizer product spillage is immediately removed and disposed of in an acceptable manner so as to prevent any contamination of ground or surface waters.

### **GENERAL**

4. The Applicant shall ensure that high standards of both equipment maintenance and operation, and of good housekeeping practices are carried out at all times consistent with meeting the requirements of this Licence.

### **DEFINITIONS**

5. In this Licence:
  - i) "particulate matter" means any finely divided liquid or solid matter other than water droplets.
  - ii) "opacity" means the degree to which visible emissions reduce the transmission of light and obscure the view of an object in the background.
