

Environment Act Licence

Manitoba
Environment

Licence No. 2009
Issue Date March 16, 1995

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

THE TURTLE RIVER WATERSHED CONSERVATION DISTRICT #2:
"the Licencee"

for the construction and operation of the Development being gradient control works on the following waterways:

- Crawford Creek (R. M. of Dauphin)
- Henderson Creek (R. M. of Ochre River)
- Corbel Drain, Scott Creek, Wilson Creek, Dead Ox Drain, Hannah (Gorge) Drain, Bearisto Drain, Evans Drain, Whyte Drain and Rosenbarker Drain (R. M. of McCreary)
- Rosedale Drain (R. M. of Rosedale)

subject to the following specifications, limits, terms and conditions:

SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS

1. The Licencee shall construct the Development in accordance with the Environment Act Proposal dated December 12, 1994.
2. The Licencee shall not use material in the construction of the Development which has been treated with creosote or penta chlorol phenol wood preservatives.
3. The Licencee shall not undertake construction activities on the Dead Ox Drain, Wilson Creek, Scott Creek, Henderson Creek or Crawford Creek without an assessment of the work sites by the Historic Resources Branch and the approval of the Director.
4. The Licencee shall not undertake the construction of any gradient control structure with a crest height in excess of 2.0 metres above the channel bottom without first submitting engineering drawings for the structure and receiving the approval of the Director for the drawings.
5. The downstream slope of the structures shall not be steeper than a ratio of 10 horizontal to 1 vertical.
6. The Licencee shall not undertake construction activities which affect sedimentation in streams between March 15 and June 1 of any year.

7. The Licencee shall stabilize soil exposed by the construction of the Development with rip-rap in areas which are frequently affected by high velocity flows. In higher areas, exposed soil shall be revegetated with grass mixtures suitable for riparian areas. Preference shall be given to native grass mixtures for use in revegetation. Revegetated areas shall be fertilized only where necessary to re-establish vegetative cover.
8. The Licencee shall provide notice of construction activities not less than two weeks in advance to the Regional Fisheries Manager in Dauphin so that arrangements can be made for on-site inspections.
9. The Licencee shall ensure that all used oil products and other regulated hazardous wastes generated by the machinery used in the construction of the Development are collected and disposed of in accordance with applicable Manitoba Environment and legislation requirements.
10. The Licencee shall ensure that fuel storage areas established for the construction of the Development are located a minimum distance of 100 metres away from all lakes and streams, and shall comply with the requirements of *Manitoba Regulation 97/88R* respecting *Storage and Handling of Gasoline and Associated Products*.

REVOCATION

If, in the opinion of the Director, the Licencee has exceeded or is exceeding the limits, or has not complied or is not complying with the specifications, terms or conditions set out herein, the Director may, in his or her discretion, suspend or permanently revoke the Licence.
