Dear Ms Braun,

**RE: Notice of Alteration, DGHTA Licence No. 98HW, City of Winkler Public Works Yard,  
Client File No.: 4487.00**

Please accept this letter as a Notice of Alteration to the above noted *Dangerous Goods Handling and Transportation Act* Licence.

The City of Winkler operates a Full Service Household Hazardous Waste Depot (Depot) at the City of Winkler – Public Works Yard Facility located at 345 1<sup>st</sup> Street in the City of Winkler. The Depot is operated in accordance with Product Care Association Collection Site Guidelines (Guidelines) and the Licence.

As part of Depot operation, fluorescent light ballasts are received from area residents for proper management and disposal. As per the Guidelines, light ballasts are assumed to contain PCB material. This Notice of Alteration is intended to request approval from Manitoba Sustainable Development to include management of light ballasts containing PCB's in its Licence. It should be noted that The City of Winkler has submitted a request to register as a PCB Storage Site in accordance with the PCB Storage Site Regulation under separate cover.

Should you have any questions or require additional information, please feel free to contact Crystal Heinrichs at **204- 325- 7535**.

Yours truly,

Crystal Heinrichs  
Works and Operations
