Hello! My apologies for not replying promptly to this report and recommendation.

The groundwater monitoring report that was provided on September 16, 2019 addresses all requirements of clauses 43 – 45 of Environment Act Licence No. 3058. We concur with your recommendation that no further groundwater monitoring is warranted for this facility.

Morning Bruce

As discussed this morning, please see below the original regulatory submission in regards to the RM St. Clements.

Based on our results to date, we recommended that additional testing and monitoring is not warranted.

Thank you
JRB

Subject: RM of St. Clements Wastewater treatment Lagoon Ground Water Monitoring Program Submission

Good morning Sustainable Development,

On behalf of our client, the RM of St. Clements, please find attached our report serving as the conclusion to the Community of East Selkirk Wastewater Treatment Lagoon (Environment Act License No. 3058) ground water monitoring efforts.

Let me know if there are any issues or concerns. Feel free to give me a call to discuss.

Thank you,

Justin Rak-Banville, M.Sc., P.Chem, P. Eng, EP
