Dear Mr. Lazareck:

**Re: Future Scrap Div. of Xpotential Products Inc. – Environment Act and Dangerous Goods Handling and Transportation Act Proposals Review**

Thank you for your email communication dated July 7, 2014 that indicates the application of Future Scrap for the conditional use approval at the Rural Municipality of Springfield for the proposed facility has been denied, preventing the project to proceed at this time. You have requested Manitoba Conservation and Water Stewardship to keep the above-noted proposals active while you explore options. Your request has been approved and your proposals dated February 18, 2014 will remain open until February 17, 2017 pending your further information.

If you wish to proceed with the applications after February 17, 2017, you will be required to submit an updated Environment Act Proposal. If you have any questions on this matter, please contact Mr. Eshetu Beshada at (204) 945-7023.

Yours truly,
