Licence No. 3166

June 1, 2016

Pauline Fondeur,
Vice President
Parkland Mill Group Inc.
Box 185, Ethelbert, MB R0L 0T0

Dear Ms Fondeur:

Re: Parkland Mill Group Inc - Licence No. 3166 Notice of Alteration

Thank you for the Notice of Alteration submitted on April 28, 2016 in which you requested an amendment to Clause 11 of Environment Act Licence 3166 issued to Parkland Mill Group Inc. You indicated that due to delayed construction of the facility and process equipment purchase, you cannot comply with the requirement of the clause.

Upon review of your request, I have concluded that the environmental effects of the alteration will be insignificant; therefore, in accordance with Section 14(2) of *The Environment Act* your request is approved as described in the April 28, 2016 Notice of Alteration. Accordingly, Clause 11 of the Licence is hereby amended as follows:

11. The Licencee shall prepare, prior to commissioning of the facility for operation, and maintain the following manuals which shall be kept at the Development and available for review upon request by an Environment Officer:
 - a) a standard operating procedural manual and a maintenance schedule for each air emission pollution control device based on the manufacturer's specifications and recommendations;
 - b) an updated standard operating procedural manual and a maintenance procedure for each air emission pollution control device within 120 days of the addition, elimination or change regarding any air emission control device; and
 - c) a copy of the manufacturing operational and maintenance manual.

If you require further information regarding this matter, please contact Peter Crocker at (204) 726-6565.

Yours sincerely,
“original signed by”

Tracey Braun, M.Sc.
Director
