Ms Shirley Delaquis  
Chairperson  
Civil Service Commission Board

Dear Ms Delaquis:

I have the honour of presenting the Annual Report for the Manitoba Civil Service Commission for the period April 1, 2007 to March 31, 2008.

The past year has been a time of change for the commission. We have reorganized our staff to better undertake the challenges that lie before us. At the executive level we have had changes as senior managers have retired or moved on to new pursuits and new ones have joined us.

The commission continued to focus on the Civil Service Renewal Strategy during 2007-08, which is a comprehensive approach to the continuous revitalization of the civil service. As the number of senior managers eligible to retire within the next five years has reached 56%, and within 10 years 74%, building leadership at all levels of the organization has taken priority. This past year the commission:

- (a) increased the number of individuals participating in the Leadership Development Initiative by 64, increasing the total number of participants to 261
- (b) had our first rural intake in the Women's Leadership Program with 29 women participating, in addition to a second Winnipeg intake with 30 women participating
- (c) based on the results of an earlier pilot, refined the Leadership @ All Levels Program for launch in early 2008-2009
- (d) developed and introduced comprehensive tools and guidelines to support the continuous learning of all employees through the use of Learning Plans in support of the Learning Policy
- (e) developed two new certificate programs for launch in early 2008-09: the Public Sector Management Certificate Program and the Essentials of Supervision Certificate Program

Competing demand for new employees is also high and recruiting and retaining new talent continues to be an important aspect of the commission's activities. During 2007-08:

- (a) nine individuals entered the Management Internship Program; to date 36 individuals have been successful in attaining regular positions in government after participating in this program and nine are in their second/third year of the program
- (b) five students were placed in summer positions under the Millennium Scholarship Foundation Summer Internship Program
- (c) the New Professionals Network more than doubled its membership, to include 370 members from across all government departments and in various locations

A new provincial civil service diversity strategy announced in December 2007 will give renewed focus to the government's commitment to a civil service workforce that at all levels is reflective of the citizens it serves. This strategy will complement the renewal strategy in addressing the government's succession needs by tapping into segments of the province's population that are currently under represented.

Emphasis has been placed in the diversity strategy on increasing the number of persons with disabilities in the civil service. As a result, an additional program coordinator has been added to manage the Career Assistance Program for Persons with Disabilities. During 2007-08 five individuals were successful in gaining employment in departments following work placements under this program.

The commission has also been successful in the past year in a number of its other diversity programs, including:

- (a) six Aboriginal persons entered into the Aboriginal Public Administration Program (internship); to date 11 individuals have been successful in attaining positions in government after participating in this program
- (b) five Aboriginal employees entered the Aboriginal Management Development Program; to date 21 employees have received promotions after participating in this program
- (c) twelve members of visible minorities were successful in attaining positions in government after participating in work placements or volunteering under the Career Assistance Program for Members of Visible Minorities and Immigrants programs, and a further 12 through direct referral to departments without a prior work placement under this program; to date 35 individuals have been successful in attaining positions in government after participating in these programs

However diversity is about more than just the numbers, it is about enriching the workplace by facilitating the exchange of different perspectives and ideas. In November 2007 the annual Diversity and Employment Equity Conference was held. A total of 133 staff from across government attended to hear eight speakers discuss their experiences. At the conference the MB4Youth Division of Manitoba Education Citizenship and Youth was presented with the 2007 Dan Highway Diversity and Employment Equity Award for their demonstrated leadership by integrating the concepts of diversity and employment equity into their organization's strategies, practices and programs.

As you will recall, in 2004 the government initiated a number of initiatives to confirm the positive kind of workplace environment desired by employees, and to renew the government's commitment to seeing such an environment continue to exist. During 2007-08 the government passed *The Public Interest Disclosure (Whistleblower Protection) Act* and associated regulations, and updated the Conflict of Interest Policy.

These highlights provide a synopsis of the work that the commission has been doing this past year. As we move forward we will continue to provide human resource leadership and services to attain the highest standard of public service provided by a dedicated and representative workforce.

Respectfully submitted,

Debra Woodgate  
Commissioner

# CIVIL SERVICE COMMISSION ORGANIZATION CHART

AS AT MARCH 31, 2008

\* filled as at June 1, 2008

# INTRODUCTION AND OVERVIEW

## Report Structure

The annual report is organized in accordance with the Civil Service Commission's appropriation structure, which reflects the department's authorized votes approved by the Legislative Assembly. The annual report includes information at the main and sub-appropriation levels related to the commission's objectives, actual results achieved, financial performance and variances, and provides a five-year historical table giving the departmental expenditures and staffing.

## Governing Legislation

The Civil Service Commission is the independent and impartial agency responsible for leading effective human resource management in government and representing the public interest in the administration of *The Civil Service Act* (the Act) and regulations. Treasury Board is responsible for the administration of sections of the Act and regulations relating to classification, pay plans, rates of pay and collective bargaining.

According to subsection 5(1) of the Act, the commission shall:

- apply and carry out the provisions of the Act and the regulations under its responsibility
- select and appoint civil servants, and be responsible for their promotion and transfer
- advise the minister having the administration of the Act on problems concerning human resource management administration
- of its own motion or upon request of the Lieutenant Governor in Council investigate and report on:
  - the operation of the Act
  - the violation of any provision of the Act or the regulations
  - any alleged impersonation, fraudulent practices, or irregularities in connection with any examination held by, or under the authority of, the commission
  - on the request of a minister or the chief officer of an agency of government to which the Act applies, investigate and report to the minister or chief officer upon any human resource management matter relating to the department or to the agency of the government
- appoint such employees as may be necessary to carry out the Act
- perform such other duties and functions as may be assigned to the commission by the Act or any other act of the Legislature or by the Lieutenant Governor in Council

Subsection 5(3) of the Act provides the commission may from time to time delegate its power or authority to sign any document, paper, minutes or instrument to such persons as it deems advisable.

## Environmental Scan

The average age of the population in Canada and Manitoba continues to grow. In Manitoba the median age of the population reported in the 2006 census was 38.1 years, up from 34.7 years reported 10 years previously. The demand for new workers has put considerable pressure on employers to differentiate themselves in order to attract and retain new talent.

Employers are turning to previously underutilized segments of our population and immigration to find new workers for their jobs. The Manitoba Bureau of Statistics estimates that by 2017, Aboriginal persons will account for 17% of all new entrants into the labour market.

The government has targeted an immigration level of 20,000 annually by 2016, of which approximately

50% would be potential new entrants into Manitoba's labour market. A recent report by Catalyst<sup>1</sup> estimates that 75% of immigrants to Canada are visible minorities.

## Composition of the Civil Service

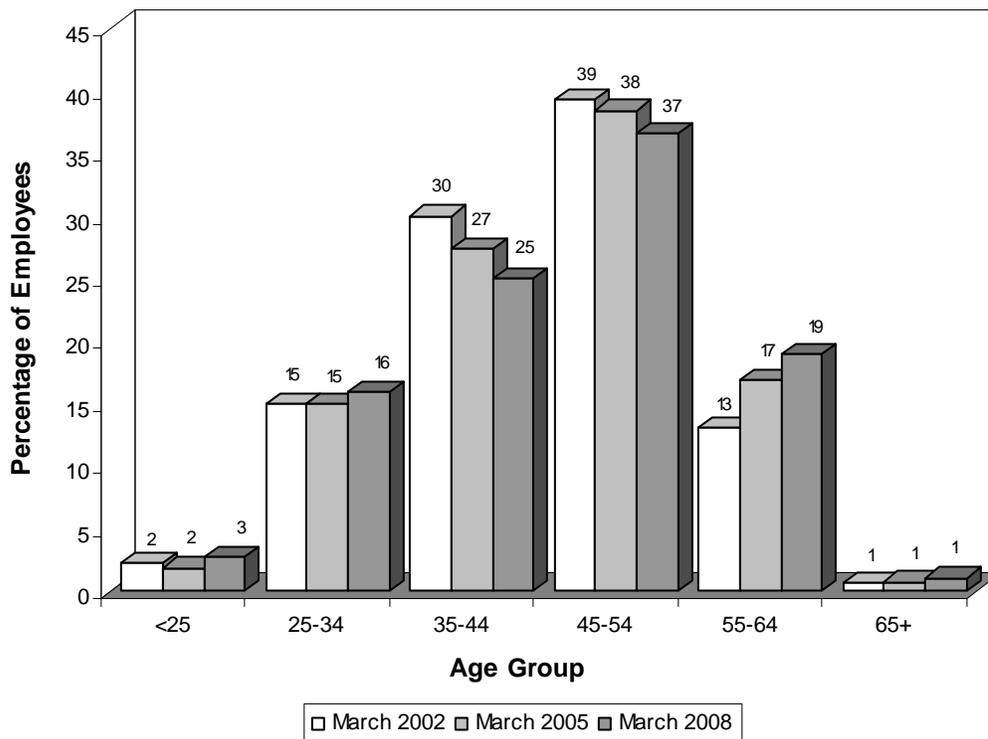

As at March 31, 2008 the total number of active civil service employees was 14,065. This includes all active employees appointed under *The Civil Service Act* (regular, term and technical - 12,447, departmental - 1,595, casual - 384, and contract - 23)<sup>2</sup>. Excluded are inactive employees<sup>2</sup>. These statistics do not include employees of any public entity (e.g. teachers, employees in regional health authorities) or Crown corporations not appointed under *The Civil Service Act*.

There has not been a significant change in the number of civil servants over the past three years. Breakdowns by employee type and by department are included in the Appendix B.

## Age Demographics

Similar to what is happening to the demographics in the general population, the average age of the civil service has increased over the past number of years, and this is reflected in the number of employees that have retired on an annual basis, which has increased by 48% over the past eight years (from 2.8% to 3.9%). Recent projections show that 28% of civil servants will be eligible to retire within 5 years. This grows to 47% within 10 years. These numbers are even higher at the senior manager<sup>2</sup> level, where 56% will be eligible to retire within 5 years, and 74% within 10 years.

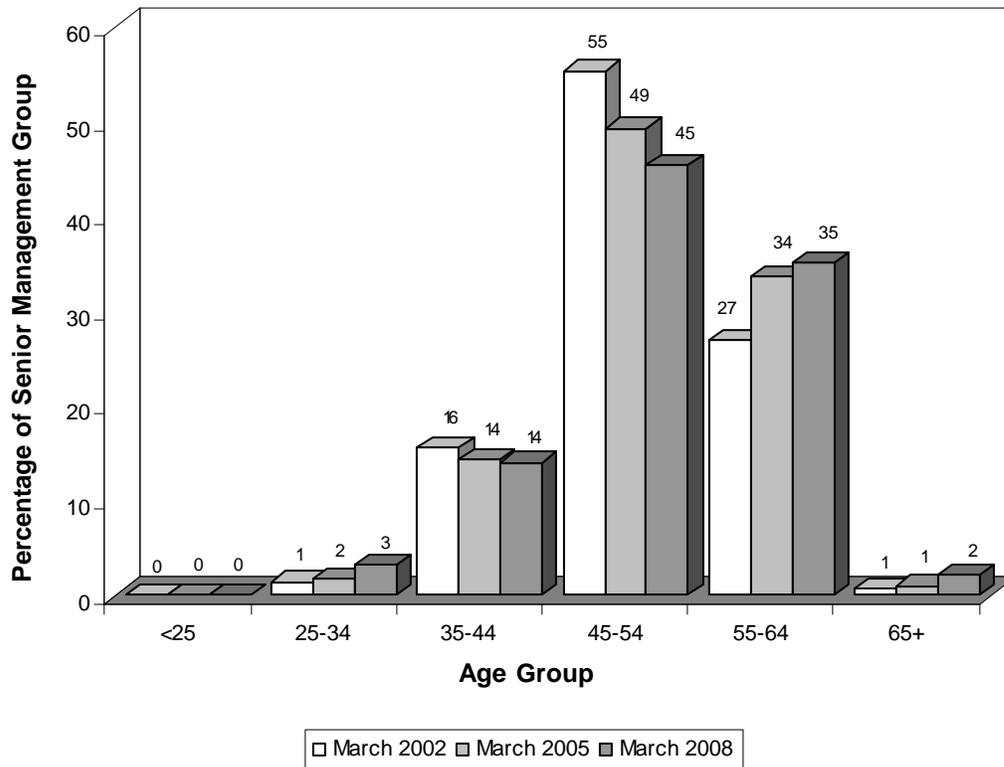

### Active employees in regular, term and technical positions

<sup>1</sup> An international organization that works to advance opportunities for women in business.

<sup>2</sup> See definitions in Appendix A.

## Senior management (active employees in the regular, term and technical categories only)

## Employment Equity

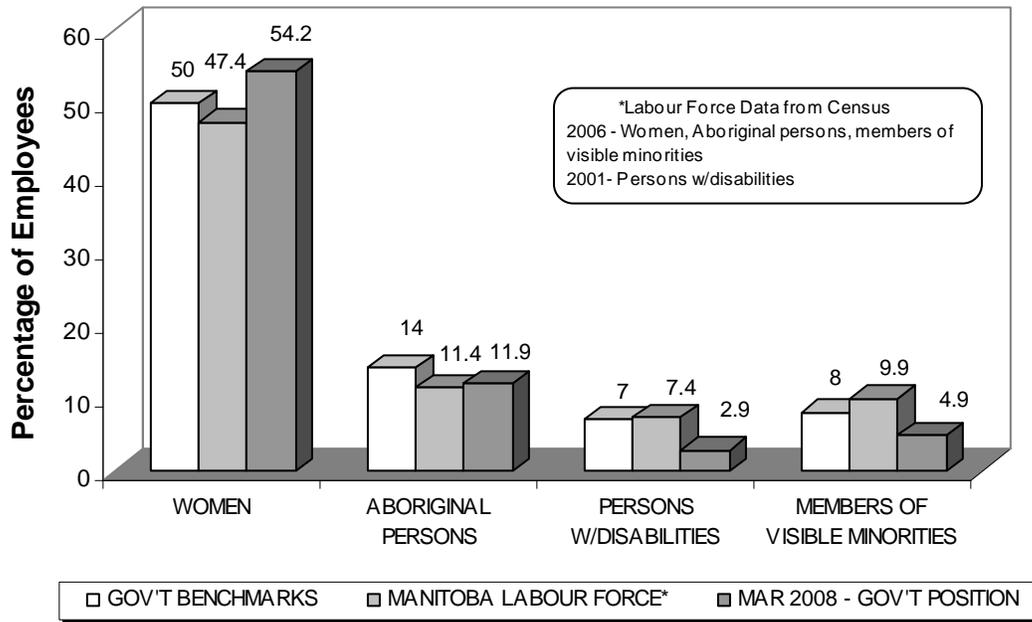

The commission is responsible for communicating and reporting on the implementation of the government's Employment Equity Policy. The goal of this policy is to achieve a civil service that is reflective of the citizens it serves at all levels of the organization, with respect to the four employment equity groups:

- Woman
- Aboriginal (Persons of North American Aboriginal ancestry, including First Nations (status and non-status Indians), Inuit and Métis).
- Person with a Disability (Persons who have a long-term or recurring impairment and who consider themselves to be disadvantaged in employment by reason of that impairment, or believe that an employer or potential employer is likely to consider them to be disadvantaged in employment by reason of that impairment, and persons whose functional limitations owing to their impairment have been accommodated in their current job or workplace.)
- Visible Minority (Persons, other than Aboriginal people, who because of their race or colour, are a visible minority). Examples of visible minority include Black (e.g. African, Haitian, Jamaican, Somali), South Asian (e.g. East Indian, Pakistani, Punjabi, Sri Lankan), South East Asia (e.g. Cambodian, Indonesian, Laotian, Vietnamese), Arab / West Asian (e.g. Armenian, Egyptian, Iranian, Lebanese, Moroccan), Chinese, Filipino, Latin American, Japanese, Korean.

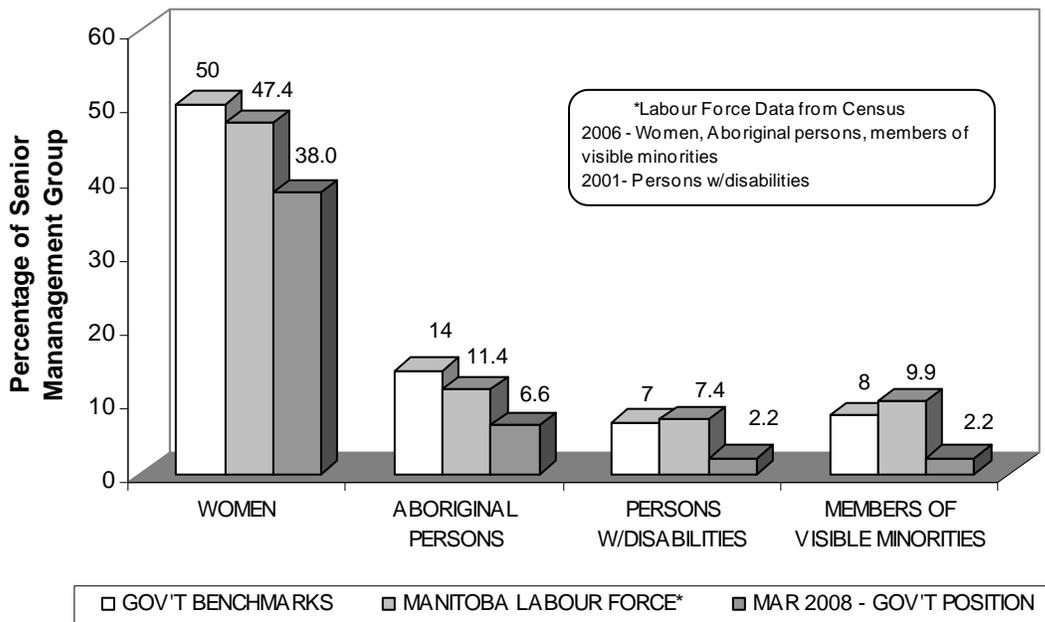

Previous benchmarks were revised in 2003-04 to reflect the population and workforce in Manitoba (as per 2001 census data) and community consultations. Statistics for employment equity group employees are based on employee self-declarations.

The following graphs reflect the benchmarks, labour force participation rates based on census data and the status as at March 2008.

**Senior management (active employees in the regular, term and technical categories only)**

## ***The Public Interest Disclosure (Whistleblower Protection) Act***

*The Public Interest Disclosure (Whistleblower Protection) Act* came into effect in April 2007. This law gives employees a clear process for disclosing concerns about significant and serious matters (wrongdoing) in the Manitoba public service, and strengthens protection from reprisal. The Act builds on protections already in place under other statutes, as well as collective bargaining rights, policies, practices and processes in the Manitoba public service.

Wrongdoing under the Act may be: contravention of federal or provincial legislation; an act or omission that endangers public safety, public health or the environment; gross mismanagement; or, knowingly

directing or counseling a person to commit a wrongdoing. The Act is not intended to deal with routine operational or administrative matters.

A disclosure made by an employee in good faith, in accordance with the Act, and with a reasonable belief that wrongdoing has been or is about to be committed is considered to be a disclosure under the Act, whether or not the subject matter constitutes wrongdoing. All disclosures receive careful and thorough review to determine if action is required under the Act, and must be reported in a department's annual report in accordance with Section 18 of the Act.

The Act applies to public sector employees including those in departments, Crown corporations, regional health authorities, statutory child and family services agencies and authorities, independent offices of the legislative assembly, universities and colleges, and approximately 400 funded agencies.

The commission assisted by Treasury Board Secretariat was responsible for the implementation of the Act across the public service. A designated officers network is in place providing a forum for designated officers in the government to meet on a regular basis for information-sharing, networking and exchanging ideas/experiences in the implementation of the new legislation.

# EMPLOYEE ASSISTANCE PROGRAM (EAP)

## Overview

The Employee Assistance Program (EAP) is responsible for ensuring that self-referred employees receive help with a variety of personal and interpersonal problems impacting negatively on their home or work life. The program accomplishes this by providing counselling and interventions that address problems that interfere with effective work performance and the well-being of employees, (e.g. marital and family difficulties, psychological concerns such as stress, depression, and grief, as well as workplace conflicts, trauma and substance abuse).

## Objectives

To assist employees in the stabilization of problems of a personal or interpersonal nature thereby deterring high costs associated with absenteeism, illness and poor morale.

## Activities/Results

The EAP experienced a total of 3,416 employee contacts inclusive of all direct clinical services as well as other program services of a non-clinical nature. Clinical services were provided to a total of 2,186 employees based on 1,819 total active cases and 1,303 new case openings.

These total figures include the 1,688 government employees who used the clinical services of the EAP reflected in the 984 new case openings and 1,333 total active cases from within the civil service. Use of EAP services among government employees is very consistent with the previous year and reflects a distribution of requests for assistance across individual (29.5%), couple (22.0%), family (22.8%) and occupational (25.7%) problem categories that is reflective of previous years.

The balance of the clinical cases are related to the 498 employees using EAP services from external contracts which are reflected in 319 new case openings and 486 total cases. The slight decrease in the figures among the external contract groups likely reflects a decrease in the total number of employees eligible for the EAP among external organizations as a result of the discontinuation of services to EAP's largest external client which has 1,900 employees.

In 2007-08 recruitment for a new respectful workplace advisor position commenced in anticipation of having an individual in place in early 2008-09.

## INTERNSHIP, EQUITY AND EMPLOYEE DEVELOPMENT

Internship, Equity and Employee Development programs enable government to recruit and advance staff consistent with organization needs and employment policies, including those that promote a representative workforce.

Human Resource Management Services is responsible to oversee the development, management and administration of these programs.

### Objectives

To provide the necessary resources to the commission for corporate programs that:

- recruit, develop and sustain future managers for the civil service
- specifically recruit employment equity group members and provide specialized support as needed during their introduction to the civil service

### Activities/Results

A description of the programs funded under this sub-appropriation is included in Appendix C.

## Sustainable Development

The commission is a small organization whose operations are primarily housed within two office building locations in Winnipeg. During 2007-08, the commission continued to place emphasis on environmental sound practices by providing for additional and more accessible recycling bins. As well, there was continued use of re-cycled paper in photocopiers and all computer printers; two-sided printing of documents, maximizing toner life and the use of re-cycled toner cartridges for all computer printers; and continued work to investigate and implement the appropriate disposal of recyclable items such as cans, newspapers and plastics in conjunction with a government-wide solution.

**Explanations:**

1. The increase in salaries year over year in Human Resource Management Services is due to costs associated with staff retirements; staffing changes (i.e. secondments) and other minor salary cost adjustments.
2. Increase in Internship, Equity and Employee Development salaries in 2007-08 is attributed to the increase in the numbers of interns in rotational assignments over the previous year, primarily the Management Internship Program (MIP). In addition, promotion of the Career Assistance Program for Persons with Disabilities resulted in an increase in the number of term placements within departments during 2007-08.

2. Increase over estimate is related to increases in employee counts within EAP client contracts.

**Explanations:**

1. The increase in 2004-05 is a result of various items: salary costs were higher due to the HR Professional Officer Series reclassification and decreased vacancies in the Internship Programs; other expenditures were higher due to increased activity the Leadership Development Initiative (LDI) and expensing of the costs for the SAP Qualifications and Requirements module (expenditures did not meet capitalization criteria).
2. Decrease is due to the elimination of the interest expense in 2005-06.
3. Increase in Internship, Equity and Employee Development salaries in 2007-08 is attributed to the increase in the numbers of interns in rotational assignments over the previous year, primarily the Management Internship Program (MIP). In addition, promotion of the Career Assistance Program for Persons with Disabilities resulted in an increase in the number of term placements within departments during 2007-08.

## CIVIL SERVICE COMMISSION – PERFORMANCE MEASURES

The following section provides information on key performance measures for the department for the 2007-08 reporting year. This is the third year in which all Government of Manitoba departments have included a performance measurement section, in a standardized format, in their annual reports.

Performance indicators in departmental annual reports are intended to complement financial results and provide Manitobans with meaningful and useful information about government activities, and their impact on the province and its citizens.

For more information on performance reporting and the Manitoba government, visit [www.manitoba.ca/performance](http://www.manitoba.ca/performance).
