

**Figure 10:** Quaternary stratigraphy present at section 112-16-317. **a)** Stratigraphic log of section 112-16-317. Till sample numbers are in white boxes. Munsell colour from Munsell Color-X-Rite, Incorporated (2015). **b)** Striated bedrock present at section 112-16-317. Striations trending toward 273° are protected from later striations trending toward 226°. **c)** Striations indicating ice-flow towards 273°. **d)** Lake view of the Quaternary sediments exposed. This site is a lee-side till deposit, where till was only present on the down-ice side of streamlined bedrock.
