

Figure 21: Till-matrix (<2 and <63 μm size-fraction) Ni values, Nickel Lake and surrounding area. **a)** Till-matrix (<63 μm size-fraction) Ni concentrations; **b)** Till-matrix (<2 μm size-fraction) of till Ni distribution; **c)** Till-matrix (<2 μm size-fraction) Ni values from the Agassiz Metallotect; **d)** Box plot of Ni values for each region identified in c); **e)** Scatter plot comparison between the <63 μm size-fraction and <2 μm size-fraction Ni values for the Nickel Lake area.
