Dear Jeff,

RE: East Manson Unit No. 7 - Approval

The Petroleum Branch is pleased to grant approval of East Manson Unit No.7 covering E/2 2-13-28, Sections 1-13-28, 35-12-28, 36-12-28 all WPM in Manson Field. The effective date for East Manson Unit No. 7 will be May 1, 2016.

The execution pages of the Unit Agreement are signed and attached.

Crescent Point is reminded that there is no approval yet to start water injection and separate conversion applications are required for any existing horizontals to be converted into injectors within this new Unit. Please inform the Branch 1(one) month in advance of when Crescent Point wants to start injection so a Waterflood Order can be created and TTEF calculated, etc.

If you have any questions in respect of the applications required please contact Leo Leonen, Technical Engineering Officer, at (204) 9456570.

Yours truly,

Keith Lowdon
Director
