Mr Landowner;

**Re: Relative Resources Ltd Battery Application 02-18-09-28 W1**

Relative Resources Ltd is proposing to construct a tank battery at an existing well site located at 2A-18-09-28 W1.

As per **Manitoba Drilling and Production Regulation 75(1)(c.1)**, Relative Resources must notify all landowners and residents within 1.5 km of the proposed battery site and consult with them about any concerns or questions they may have.

You are receiving this letter of consultation because municipal records indicate that you are a landowner or resident within 1.5 km of the proposed battery site.

The battery will consist of five storage tanks receiving daily oil production of approximately 14 m3 with an expected H2S content of less than 1%.

The battery must be permitted by the Manitoba Petroleum Branch and must meet their regulatory requirements. These regulations may be found on the internet at <http://www.gov.mb.ca/stem/petroleum/actsregs/home.html> or you may contact a Petroleum Branch representative at (204)748-4260.

We would appreciate receiving your response by August 9, 2010. If you have any questions I may be contacted at (204)851-5822. Please complete the bottom portion of this letter and return in the enclosed post paid envelope.

Thank you for your time.
