

Licence No. 2099

Issue Date August 28, 1995

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

RURAL MUNICIPALITY OF THOMPSON.; "the Licence"

for the upgrading and operation of a Development, being a 2-cell wastewater treatment lagoon serving the Village of Miami, as proposed in The Environment Act Proposal dated June 8, 1995, and as shown in Appendix 'A' attached to this Licence, and located in the south half of Section 8, Township 5, Range 6 WPM in the R.M. of Thompson, with the treated effluent to be discharged into the south arm of the Tobacco Creek drain which flows into the Little Morris River, subject to the following specifications, limits, terms and conditions:

DEFINITIONS

In this Licence:

- “affected area” means a geographical area affected by an odour nuisance;
- “approved” means approved by the Director in writing;
- “appurtenances” means machinery, appliances, or auxiliary structures attached to a main structure to enable it to function, but not considered an integral part of it;
- “as constructed drawings” means engineering drawings complete with all dimensions which indicate all features of the Development as it has actually been built;
- “ASTM” means the American Society for Testing and Materials;
- “bentonite” means specially formulated standard grade sodium bentonite conforming to American Petroleum Institute Specification 13-A;
- “cut-off” means a vertical or slanted trench filled with compacted clay, or a wall constructed from compacted clay;
- “Director” means a person so designated pursuant to The Environment Act;
- “effluent” means treated wastewater flowing or pumped out of the wastewater treatment lagoon into the environment;
- “fecal coliform” means aerobic and facultative, Gram-negative, nonspore-forming, rod-shaped bacteria capable of growth at 44.5 °C, and associated with fecal matter of warm blooded animals;
