Dear Stephanie Lundrigan:

Re: Darling International Canada Inc. – Notice of Alteration

Thank you for the Notice of Alteration (NoA) submitted on September 16, 2015 and the additional information provided on October 7, 2015. The proposed NoA is to upgrade the feather hydrolyser from a batch to a continuous system and also to introduce a new scrubber chemical, RADOX, for enhanced odour control at the Rothsay Winnipeg facility. It is understood that both the feather hydrolyser upgrade and the use of RADOX will further minimize odour emission of the facility from its current emission rate.

Upon review of your alteration request, I have concluded that the environmental effects of the NoA will be insignificant, and, therefore, in accordance with Section 14(2) of *The Environment Act* you are hereby authorized to carry out the proposed alteration as described in the September 16, 2015 NoA.

If you have any questions regarding this matter, please contact Mr. Eshetu Beshada of this office at (204) 945-7023.

Yours sincerely,

“original signed by”

Tracey Braun, M.Sc.
Director
