Subject: RE: 619-2016 Biosolids Field Storage Report - Request for Extension

This is in response to the November 24, 2017 email message wherein it was requested that a two-week extension be provided to the City of Winnipeg relative to the deadline to submit the Biosolids Field Storage Report from November 30, 2017 to December 14, 2017. The November 30, 2017 date was identified in a September 8, 2017 letter from the Environmental Approvals Branch to the City that approved the Field Storage Assessment pilot.

The nature of the work yet to be completed or finalized has no likely influence on the environment or public health and there have been no public or technical inquiries to the Branch relative to this pilot. Upon consideration of the request, it has been decided to approve the request for a two-week extension to the deadline for submitting the related report.

If you have any questions or would like to discuss this further, please contact me.

Yours sincerely,

Robert Boswick, P.Eng.

Subject: 619-2016 Biosolids Field Storage Report - Request for Extension

Rob Boswick,

The City would like to request a 2 week extension to the November 30 deadline for the Biosolids Field Storage Assessment Report. In the letter from MSD to the City dated September 8, 2017, the biosolids field storage assessment was approved, subject to several conditions, including the submission of a report to MSD by November 30, 2017.

The field storage assessment activities have been completed and the report has been drafted. We are currently working on reviews and revisions to the report. We request that the deadline for submission to MSD be extended to December 14, 2017.

We appreciate your consideration.

Duane Griffin
