

COVID -19 UPDATE for 2020 Pesticide Applicator/Dealer Licences

Pesticide Applicators/Dealers in Manitoba MUST HAVE A VALID LICENCE to continue business in 2020. Pesticide Applicators/ Dealers still need to apply for licences with Manitoba Agriculture and Resource Development as usual.

We have made special accommodation this year to keep in line with Public Health Directives. New applicators/dealers will be able to get their pesticide category necessary for their licence by taking an open book, on-line timed exam in 2020. In 2021, they will be required to take the closed book exam in order to comply with licence requirements.

Pesticide applicators/dealers from outside of Manitoba who need to write the Manitoba Regulation Exam will also take an online, timed open book exam for 2020.

The requirement to recertify in categories that require exams will be extended until Dec 31, 2020. These pesticide applicators/dealers will have to re-certify with a closed book exam before getting their 2021 licence.

Obtaining course materials and registering for the exams can be arranged through Jo-Anne Lenton at ACC at lentonj@Assiniboine.net or (204) 725-8700 (6716).

Any questions or concerns regarding licencing, please contact Manitoba Agriculture and Resource Development at (204) 324-2804.
