Hospital Beds

(R) Verso Side Support Rail (Fold Down)

Program Consultant approval required.

This ¾-length rail provides a unique collapsible folding solution, 59"L x 15"H.
Model #EVSR-1823

Left

(A) 064005L Each

Right

064005R Each

Please note:

When choosing rails, placement is critical. The side of the bed that the rails are to be installed must be known at the time of ordering. To determine left or right, you must be at the foot of the bed and facing the head of the bed for proper orientation.

(R) Side Swivel Transfer Supports (Left/Right Swivel)

OT or PT approval required. The swivel handles provide a unique solution for users in search of a low profile, discreet transfer aid. These handles remain below the surface of the mattress and easily swing out and lock into position to provide necessary transfer support on the right or left hand side of the bed. 13½"L x 8"H (flush with mattress surface).

Left side. *ESSHL-2479*

(B) 063994 Each

Right side. *ESSHR-2480*

063995 Each

(R) Lifting Support Pole (trapeze kit)

This lifting support provides safe and convenient overhead repositioning assistance while in bed. The support kit allows for tool-free mounting and securely fits into the receivers of the head section on the left or right hand side. State right or left side. The catching handle can be adjusted in both height and depth.
