

Employment and Income Assistance Termination of Maintenance Enforcment Program Assignment of Benefits Calculation Sheet

This tracking sheet <u>must</u> be completed when the SAMIN maintenance warning "<u>Maintenance Exceeds Net SA Payable</u>" is received due to earnings/income but the participant has not yet reached "exit point". This document will ensure that the correct amount of assigned benefits are returned to the department by MEP when participants receive EIA benefits at levels lower than amounts assigned via MEP. This will also ensure that any amounts remaining after the EIA recovery are redirected to the creditor (i.e. EIA participant) upon termination of the maintenance assignment.

The MEP assignment must be terminated at the end of the month in which the participant last received EIA benefits (i.e. not yet reached \$0.00 payable).

This form **must accompany** the Assignment of Support/Support Arrears and Enforcement form with the Termination of Assignment/Enforcement section completed and signed.

Note: Only fill in the blue highlighted sections!

Name:				
EIA Case #:				
MEP File #:				
EIA Benefit Month	Monthly Maintenance Assigned via MEP (see support agreement/CCMA)	Total Monthly EIA Released (see IBDI)	EIA Benefit Recovery from MEP (lesser of EIA released v.s. assigned)	Remainder Payable by MEP to Participant (upon termination)
	, ,	,	<u> </u>	, ,
Example: Aug-2013	\$400.00	\$300.00	\$300.00	\$100.00

See Page 2 if more space required to record additional monthly information.

Print and fax form to Maintenance Enforcement Program at (204) 945-5449.
