

Surficial geology of the McLeod Peninsula NTS area (64H4), Manitoba

By M.S. Trommelen
Manitoba Geological Survey
Manitoba Mineral Resources

CONTENTS

This zipped dataset contains:

1. Map PDF (1:50 000 scale)
2. ESRI® Shapefiles and layer files
3. This ReadMe PDF file

FILES

In the root directory:

ReadMe_MAP2014-1.pdf – this file
MAP2014-1.pdf – Surficial geology map

FOLDERS

\Layer files – contains the major feature classes as ESRI® layer files

\Shapefiles – contains the major feature classes as ESRI® shapefiles

\Support – contains TrueType® fonts

REQUIREMENTS

Viewing the included data requires either ESRI® ArcMap™ or similar GIS software capable of reading ESRI® shapefiles.

The documents in this zipped dataset are in Adobe® Portable Document Format (PDF) and require Adobe® Acrobat® Reader version 10 or newer for viewing and printing. The free reader can be downloaded from Adobe® at <http://get.adobe.com/reader/>
