

## **Targeted Geoscience Initiative (TGI) II: Williston Basin Architecture and Hydrocarbon Potential**

Saskatchewan Geological Survey Open File OF2010-45  
Manitoba Geological Survey Open File OF2011-3

### **Regional hydrogeological characterization of the northeastern margin of the Williston Basin**

By D. Palombi and B.J. Rostron

Set of 55 maps

#### ***This entire series may be referenced as:***

Palombi, B. and Rostron, B.J. (2013): Regional hydrogeological characterization of the northeastern margin of the Williston Basin; Saskatchewan Ministry of the Economy, Saskatchewan Geological Survey, Open File 2010-45/Manitoba Innovation, Energy and Mines, Manitoba Geological Survey, Open File OF2011-3, set of 55 1:3 000 000-scale maps.

#### **List of Maps**

- Sheet 1: Total Dissolved Solids (TDS) – Cambro-Ordovician (Deadwood and Black Island) Aquifer
- Sheet 2: Water Driving Force – Cambro-Ordovician (Deadwood and Black Island) Aquifer
- Sheet 3: Freshwater Hydraulic Head – Cambro-Ordovician (Deadwood and Black Island) Aquifer
- Sheet 4: Total Dissolved Solids (TDS) – Yeoman (Yeoman and Red River) Aquifer
- Sheet 5: Water Driving Force – Yeoman (Yeoman and Red River) Aquifer
- Sheet 6: Freshwater Hydraulic Head – Yeoman (Yeoman and Red River) Aquifer
- Sheet 7: Total Dissolved Solids (TDS) – Ordo-Silurian Aquifer
- Sheet 8: Water Driving Force – Ordo-Silurian Aquifer
- Sheet 9: Freshwater Hydraulic Head – Ordo-Silurian Aquifer
- Sheet 10: Total Dissolved Solids (TDS) – Winnipegosis Aquifer
- Sheet 11: Water Driving Force – Winnipegosis Aquifer
- Sheet 12: Freshwater Hydraulic Head – Winnipegosis Aquifer
- Sheet 13: Total Dissolved Solids (TDS) – Manitoba (Dawsom Bay and Souris River) Aquifer
- Sheet 14: Water Driving Force – Manitoba (Dawsom Bay and Souris River) Aquifer

Sheet 15: Freshwater Hydraulic Head – Manitoba (Dawsom Bay and Souris River) Aquifer

Sheet 16: Total Dissolved Solids (TDS) – Duperow Aquifer

Sheet 17: Water Driving Force – Duperow Aquifer

Sheet 18: Freshwater Hydraulic Head – Duperow Aquifer

Sheet 19: Total Dissolved Solids (TDS) – Birdbear Aquifer

Sheet 20: Water Driving Force – Birdbear Aquifer

Sheet 21: Freshwater Hydraulic Head – Birdbear Aquifer

Sheet 22: Total Dissolved Solids (TDS) – Bakken Aquifer

Sheet 23: Water Driving Force – Bakken Aquifer

Sheet 24: Freshwater Hydraulic Head – Bakken Aquifer

Sheet 25: Total Dissolved Solids (TDS) – Souris Valley (Lodgepole) Aquifer

Sheet 26: Water Driving Force – Souris Valley (Lodgepole) Aquifer

Sheet 27: Freshwater Hydraulic Head – Souris Valley (Lodgepole) Aquifer

Sheet 28: Total Dissolved Solids (TDS) – Tilston Aquifer

Sheet 29: Water Driving Force – Tilston Aquifer

Sheet 30: Freshwater Hydraulic Head – Tilston Aquifer

Sheet 31: Total Dissolved Solids (TDS) – Alida Aquifer

Sheet 32: Water Driving Force – Alida Aquifer

Sheet 33: Freshwater Hydraulic Head – Alida Aquifer

Sheet 34: Total Dissolved Solids (TDS) – Frobisher (Charles) Aquifer

Sheet 35: Water Driving Force – Frobisher (Charles) Aquifer

Sheet 36: Freshwater Hydraulic Head – Frobisher (Charles) Aquifer

Sheet 37: Total Dissolved Solids (TDS) – Midale Aquifer

Sheet 38: Water Driving Force – Midale Aquifer

Sheet 39: Freshwater Hydraulic Head – Midale Aquifer

Sheet 40: Total Dissolved Solids (TDS) – Ratcliffe Aquifer

Sheet 41: Water Driving Force – Ratcliffe Aquifer

Sheet 42: Freshwater Hydraulic Head – Ratcliffe Aquifer

Sheet 43: Total Dissolved Solids (TDS) – Poplar Aquifer

Sheet 44: Water Driving Force – Poplar Aquifer

Sheet 45: Freshwater Hydraulic Head – Poplar Aquifer

Sheet 46: Total Dissolved Solids (TDS) – Jurassic (Gravelbourg/Reston Formations Shaunavon Formation/Lower Melita Member, Reirdon Formation/Upper Melita Member) Aquifer

Sheet 47: Water Driving Force – Jurassic (Gravelbourg/Reston Formations Shaunavon Formation/Lower Melita Member, Reirdon Formation/Upper Melita Member) Aquifer

Sheet 48: Freshwater Hydraulic Head – Jurassic (Gravelbourg/Reston Formations Shaunavon Formation/Lower Melita Member, Reirdon Formation/Upper Melita Member) Aquifer

Sheet 49: Total Dissolved Solids (TDS) – Mannville (Success, Cantuar, Pense, and Swan River Formations) Aquifer

Sheet 50: Water Driving Force – Mannville (Success, Cantuar, Pense, and Swan River Formations) Aquifer

Sheet 51: Freshwater Hydraulic Head – Mannville (Success, Cantuar, Pense, and Swan River Formations) Aquifer

Sheet 52: Total Dissolved Solids (TDS) – Newcastle Aquifer

Sheet 53: Water Driving Force – Newcastle Aquifer

Sheet 54: Freshwater Hydraulic Head – Newcastle Aquifer

Sheet 55: Freshwater Hydraulic Head – Judith River (Lower Odanah Member) Aquifer
