

**Figure 32:** Quaternary stratigraphy present at section 112-16-317: **a)** stratigraphic log of section 112-16-317. Till sample numbers are in white boxes. Munsell colour from Munsell Colour–X-Rite, Incorporated (2015); **b)** striated bedrock present at section 112-16-317. Striations trending toward 273° are protected from later striations trending toward 226°; **c)** striations indicating ice-flow towards 273°; **d)** lake view of the Quaternary sediments exposed. This site is a lee-side till deposit, where till was only present on the down-ice side of streamlined bedrock.
