THE REGULATIONS ACT
C E R T I F I C A T E

I, Jas. T. Lawley, P. Eng., Chairman of The Oil and Natural Gas Conservation Board, of Manitoba, hereby certify that the attached Regulation is the original order:—

- (a) introduced The Oil and Natural Gas Conservation Board Order No. 642;
- (b) made pursuant to "The Mines Act";
- (c) made by The Oil and Natural Gas Conservation Board, of Manitoba;
- (d) under date of the *14th* day of *June* A. D., 1976;
- (e) which Regulation comes into force on the date of filing with the Registrar of Regulations.

Jas. T. Lawley, P. Eng.,
Chairman,
The Oil and Natural Gas
Conservation Board.

THE OIL AND NATURAL GAS CONSERVATION BOARD

ORDER NO. 64A

Pertaining to the Maximum Permissible Rate of Production in the

DALY FIELD

Made and passed pursuant to "The Mines Act", Cap. M160, of the
Continuing Consolidation of the Statutes of Manitoba, by
The Oil and Natural Gas Conservation Board, of Manitoba

(Filed:

1. The Oil and Natural Gas Conservation Board Order No. 62A, being Manitoba Regulation 100/74 is repealed.
2. The Oil and Natural Gas Conservation Board Order No. 63A, being Manitoba Regulation 31/75 is repealed.
3. Manitoba Revised Regulation M160 - 101 is amended

(a) by striking out the word and figure "subsection (4)" in the first line of subsection 1(1) thereof and substituting therefor the words and figures "subsections (4), (5) and (6)";

(b) by striking out the words and figures "Order No. 13A, being subsections (1), (2), and (3)" in the second and third lines of subsection 1(4) thereof and substituting therefor the words and figures "subsections (1) and (3)"; and

(c) by adding thereto immediately after subsection 1(4) thereof, the following subsections:

"1(5) The producing wells, located in the S.E. 1/4 of Section 3, Township 10, Range 28 WPM in the Daly Field, shall be exempt from the provisions of subsections (1) and (3) for the period during which Order No. FM 24, being Manitoba Regulation 98/74, is in effect.

2—Order No. 64A

1(6) Until further order, the wells comprising Daily Unit No. 3 are exempt from the provisions of subsections (1) and (3)."

Oil and Natural Gas Order No. 64A,
made and passed this ^{14th} day of
^{June} A. D., 1976, at the City
of Winnipeg, in the Province of
Manitoba, by The Oil and Natural
Gas Conservation Board.

Approved: 7

Sidney Green,

Mr. J.M. Clarke,
Box 999,
Virden, Manitoba.

Dear Mr. Clarke:

Regarding your inquiry concerning the Daly Waterflood area, I have been advised by my Department that the possibility of unitizing the Tracts involved in the waterflood area was raised at a meeting of the Oil and Natural Gas Conservation Board held in Virden on April 19, 1978.

At this hearing, Canadian Standard Limited requested approval of a pilot high pressure waterflood scheme in the Daly Waterflood area. Following the presentation of the plan, the Board asked the applicant to give thought to some form of unitization in the area before considering any full-scale high pressure flood. In replying to this request by the Board, Mr. P. Pisto, acting on behalf of the applicant, stated that they would look into the practicality and feasibility of unitizing at such time as they were going to a full-scale high pressure flood.

As a further hearing of the Board is necessary before any approval can be given to a high pressure waterflood scheme, the matter of unitization and form of participation for the Tracts involved could be discussed at that time.

A copy of our correspondence will be forwarded to The Oil and Natural Gas Conservation Board.

Yours sincerely,

Honourable Sidney Green

Dear Sir:

Re: Original Daly Field Water Flood plan

The writer would be interested to know if your department is making further studies regarding future plans for institution of a more equitable form of participation of the oil production from the tracts defined as the Daly Water Flood area.

In the interests of several Mineral and Royalty owners, and writing specifically as a royalty owner myself, I would like to see the area unitized on a basis comparative to the Roselea and North Virden (Scallion) units, whereby the participation factor is justly calculated to the benefit of all concerned within the designed unit.

Yours very truly

February 10, 1970

Daly Field - Manitoba

Mr. F. S. Gamey,
Reservoir Engineer,
Mines Branch,
Department of Mines and Natural Resources,
Province of Manitoba,
911 Norquay Building,
401 York Avenue,
Winnipeg 1, Manitoba.

Dear Sir:

As requested in your letter of February 2, 1970 we attach hereto a list of prima facie Royalty Owners within the Daly area as outlined in the map attached to our Application dated January 27, 1970. You will notice that the list has been divided into four parts as follows:

- Part I Those lands within the Application area for which Chevron Standard Limited is the Working Interest Owner. (That is, all of the lands outlined in our Application except Lsd. 7, Sec. 14, 10-28 WPM.)
- Part II Those lands within the Application area for which Chevron Standard Limited is not the Working Interest Owner.
- Part III Lands outside the Application area which may be affected by the pressure increase because they are covered by cross-line water flood Agreements. Chevron Standard Limited is the Working Interest Owner for these lands.
- Part IV Lands outside the Application area for which there are cross-line Agreements. Chevron Standard Limited is not the Working Interest Owner for these lands.

Our information as shown on the attached list is taken from our own files

Mr. F. S. Gamey

February 10, 1970

where we are the Working Interest Owner. Searches from Field Title Service were used to compile the information for those lands in which we are not the Working Interest Owner.

If you require more information in this regard or if we can be of further service, please advise.

Yours very truly,

R. R. MAHAFFEY

Room 1010 Norquay Building
WINNIPEG 1, Manitoba

Attention: Mr. M. J. Gobert

Dear Sir:

Re: Order No. PM15, Pressure Maintenance by
Water Flooding in the Daly Field

Water injected into the well Chevron Daly WTW 14-1-10-28 during the month of May was 8,221 barrels at a wellhead pressure of 1275 psi. The maximum rate during the month was 278 bbls./day.

Cumulative injection under high pressure conditions to the end of May is 17,596 bbls.

There has been no change in production or fluid levels in the offsetting producing wells and to date there do not appear to be any detrimental effects that may be attributed to the High Pressure Water Flood.

We would now like to apply for permission to increase the injection pressure to not exceed 1,400 p.s.i.g. with the volume of water to not exceed 600 barrels per day.

Yours truly,

[Signature]

PRESSURE MAINTENANCE RULES

1. (1) Water, produced from oil wells in the Daly Field, shall be injected to the Lodgepole formation of the Mississippian Age in the well
Chevron Daly WIW 14 - 1 - 10 - 28
 - (2) The volume of water injected shall not exceed 600 barrels per day, at any time.
 - (3) The injection pressure during the first month of operation of the Pilot High Pressure Water Flood shall not exceed 1,300 p.s.i.g.
 - (4) Chevron Standard Limited shall, following the first month's operation, file with The Oil and Natural Gas Conservation Board, a report of the performance and efficacy of the Pilot High Pressure Water Flood. The report required under this Clause may be subject to any direction, in writing, by the Board.
2. The Board may grant permission to the operator to increase the injection pressure by increments of 100 p.s.i.g., during succeeding test periods of one (1) month's duration; and the requirements of sub-clause 4 of Rule 1 shall apply for each test period.
3. Chevron Standard Limited shall immediately report to the Board any indication of channelling or breakthrough of injected water to producing wells, or any indication of other detrimental effects that may be attributable to the Pilot High Pressure Water Flood.
4. After commencement, the operator shall, subject to any remedial work required to be performed on the water injection well or offsetting oil producing wells, endeavour to maintain continuous injection for not more than three hundred and sixty-five (365) consecutive days from the effective date of this Order.
5. Notwithstanding the provisions of Rule 4, the Board may, upon application by the operator, approve the suspension of water injection.
6. This Order shall be effective at the hour of seven o'clock in the forenoon on February 1, 1971.

Oil and Natural Gas Order No. PM 15,
made and passed this 4th day
of January A.D., 1971, at
the City of Winnipeg, in the
Province of Manitoba, by The Oil
and Natural Gas Conservation Board.

Approved:

"Sidney Green"

Sidney Green,

Manitoba Regulation 4/71

Being THE OIL AND NATURAL GAS CONSERVATION BOARD
ORDER NO. PM 15
An Order pertaining to Pressure Maintenance by Water Flooding
DALY FIELD

Made and passed pursuant to "The Mines Act", R.S.M., 1970, and amendments thereto, by The Oil and Natural Gas Conservation Board, of Manitoba.

(Filed January 18, 1971)

WHEREAS, subsection (9) (d) of Section 62 of "The Mines Act", being Chapter M160 of the Revised Statutes of Manitoba, provides as follows:

"62 (9) Without restricting the generality of subsection (8) the board, with the approval of the minister, may make orders

(d) requiring the repressuring, recycling, or pressure maintenance, of any pool or portion thereof where it is economical so to do, and for that purpose where necessary requiring the introduction or injection into any pool or portion thereof of gas, air, water, or other substance;"

AND WHEREAS, the Board, pursuant to Section 62 of "The Mines Act", held a public hearing on March 19 and December 15, 1970, for the purpose of considering a Pilot High Pressure Water Flood in the Daly Field in Manitoba by Chevron Standard Limited.

AND WHEREAS, upon due consideration of the submissions and testimony at the hearing, the Board has found that it is reasonably necessary to conduct a Pilot High Pressure Water Flood in the Daly Field in Manitoba.

NOW, THEREFORE, the Board orders:

1. (a) Chevron Standard Limited shall conduct a Pilot High Pressure Water Flood by the injection of water to the Lodgepole formation of the Mississippian Age underlying part of the Daly Field;
- (b) The pressure maintenance operations shall be in accordance with, and subject to, the following rules:

Manitoba Regulation 6/70**Being THE OIL AND NATURAL GAS CONSERVATION BOARD
ORDER NO. 50A*****Pertaining to the Maximum Permissible Rate of Production in the
DALY FIELD***

*Made and passed pursuant to "The Mines Act", R.S.M., 1954, and
amendments thereto, by The Oil and Natural Gas Conservation
Board, of Manitoba.*

(Filed January 2, 1970)

1. Until January 1, 1971, the following wells, located in the Daly Field, shall be exempt from the provisions of Order No. 13A, being Manitoba Regulation 12/55:

Cdn-Sup Cruickshank Daly 11 - 4 - 10 - 28

Cdn-Sup Cruickshank Daly 12 - 4 - 10 - 28

Cdn-Sup Cruickshank Daly 13 - 4 - 10 - 28

Cdn-Sup Cruickshank Daly 14 - 4 - 10 - 28

2. This Order shall be effective on and from the First Day of February, 1970.

JOHNSON: I missed the first part of Mr. Pizio's presentation there - are you planning on using a packer in this injection well?

PIZIO: Yes, we are.

CHAIRMAN: Unfortunately Mr. Gobert had to make a phone call - whether he had any further questions, I'm not certain whether he asked them before he left. What I would suggest is this - that will conclude that we do have some concern. I don't know what timing you had in mind but, as a Board, we would propose to simply adjourn this particular portion of the hearing at this time rather than conclude it because we were discussing a few minutes ago - we wanted to hear the presentation - we wanted to hear the arguments and questions - we would like to review these - there might be some additional things we would like to ask - so we certainly would not wish to make any decision here today. I think probably the best way of handling it is to adjourn this part - you haven't indicated when you want to get going - what kind of time you have - if we are thinking of reconvening at some point - the hearing or continuation of this.

PIZIO: I don't believe that the time as far as the institution of the pilot scheme is that critical. We would, of course, wish to proceed as soon as we could.

CHAIRMAN: We would hope that we wouldn't drag our feet - we certainly would like to review what has been said and then call a hearing or continuation -  I think this would be the best way probably to deal with the matter. Mr. Gobert is back - I will indicate to him what has been said - if he has got any questions.

I just suggested that as we have concluded the hearing on this item - if you had some questions - and answers and so on -

7 I suggested that we should adjourn this particular part of the hearing because we want to think about it - and want a transcription - study the questions and answers and so on - this would be a more useful way of dealing with it than to close the hearing - there might be some other questions we might want to ask.

GOBERT: I'm in complete agreement - and as it has been closed now I can speak off the record - partially at least. I would like you people to give some thought - if there is a future - if there ever is an approval to the pilot and future expansion - in some form of unitization in that area.

PIZIO: We can certainly look into the practicality and feasibility of unitizing at such time as we were going to a full scale high pressure flood.

JOHNSON: I missed the first part of Mr. Pizio's presentation there - are you planning on using a packer in this injection well?

PISIO: Yes, we are.

CHAIRMAN: Unfortunately Mr. Gobert had to make a phone call - whether he had any further questions, I'm not certain whether he asked them before he left. (Filed January 18, 1971)

WHEREAS, subsection (9) (d) of Section 62 of "The Mines Act", being Chapter M160 of the Revised Statutes of Manitoba, provides as follows:

"62 (9) Without restricting the generality of subsection (8) the board, with the approval of the minister, may make orders

(d) requiring the repressuring, recycling, or pressure maintenance, of any pool or portion thereof where it is economical so to do, and for that purpose where necessary requiring the introduction or injection into any pool or portion thereof of gas, air, water, or other substance;"

AND WHEREAS, the Board, pursuant to Section 62 of "The Mines Act", held a public hearing on March 19 and December 15, 1970, for the purpose of considering a Pilot High Pressure Water Flood in the Daly Field in Manitoba by Chevron Standard Limited.

AND WHEREAS, upon due consideration of the submissions and testimony at the hearing, the Board has found that it is reasonably necessary to conduct a Pilot High Pressure Water Flood in the Daly Field in Manitoba.

NOW, THEREFORE, the Board orders:

1. (a) Chevron Standard Limited shall conduct a Pilot High Pressure Water Flood by the injection of water to the Lodgepole formation of the Mississippian Age underlying part of the Daly Field:
- (b) The pressure maintenance operations shall be in accordance with, and subject to, the following rules:

Manitoba Regulation 6/70**Being THE OIL AND NATURAL GAS CONSERVATION BOARD
ORDER NO. 50A*****Pertaining to the Maximum Permissible Rate of Production in the
DALY FIELD***

*Made and passed pursuant to "The Mines Act", R.S.M., 1954, and
