

## **Proposed Sinclair Unit No. 2**

### **Application for Enhanced Oil Recovery Waterflood Project**

#### **LIST OF APPENDICES**

Appendix 1	Sinclair Unit 2 S-N Structural Cross Section
Appendix 2	Sinclair Unit 2 Top Middle Bakken Structure map
Appendix 3	Sinclair Unit 2 Three Forks Phi – h (por*m) Core Data porosity Map
Appendix 4	Sinclair Unit 2 Three Forks k – h (md*m) Core Data permeability map
Appendix 5	Original Oil in Place Estimates by Well / LSD in Unit 2
Appendix 6	40 acre Tracts Land and Ownership Listing
Appendix 7	Tract Factors Based on First 90 Days Production Methodology and Calculations to Determine Production Contribution
Appendix 8	Tract Factors Based on Oil in Place (OOIP) by Well / LSD Methodology and Calculations to Determine OOIP Contribution
Appendix 9	Proposed Unit 2 Original Oil in Place Estimate calculation methodology by GLJ Petroleum Consultants
Appendix 10	Sinclair Units 1, 2, and 3, Reservoir Section Comparison, Stratigraphic Cross Section – Datum Upper Bakken
Appendix 11	Sinclair Units 1, 2, and 3, Permeability vs Porosity Cross Plot, Three Forks Reservoir
Appendix 12	Sinclair Units 1, 2, and 3, Permeability vs Porosity Cross Plot, Three Forks and Middle Bakken Reservoir included
