### **PROFILE**

The Manitoba Development Corporation (MDC) provides financial services and financial instruments on behalf of the Province of Manitoba to assist with economic development initiatives. There are three divisions administered by MDC, Business Support, the Provincial Nominee Program for Business (PNP-B), and effective April 1, 2015, Manitoba Trade and Investment Division (MTI). Business Support administers the Manitoba Industrial Opportunities Program (MIOP) and the Third-Party Investment Funds Program (Investment Program). The PNP-B is a program for international entrepreneurs who wish to immigrate and establish a business in Manitoba. Manitoba Trade and Investment delivers targeted programs and services to Manitoba small and medium sized enterprises to promote Manitoba as a destination for foreign direct investment.

The Province determines which programs will be housed in MDC, what resources are available to administer the programs, and the desired outcomes for those programs. MDC requires approval of the Province of Manitoba to provide financial assistance, loans, guarantees or equity investments and must comply with all Provincial directives.

### MANITOBA INDUSTRIAL OPPORTUNITIES PROGRAM

The Manitoba Industrial Opportunities Program provides highly flexible financial support to Manitoba based businesses. The program targets loans in excess of \$500,000.

The primary criteria in assessing any request for assistance will be:

- the viability of the business proposal;
- the applicant's level of equity contribution; and,
- the project's resulting benefits to the Manitoba economy.

The Program provides repayable, secured loans or loan guarantee assistance to recipient companies in return for significant project investment and/or long-term economic benefit (i.e. job creation). Most loan repayment terms are 60 to 84 months and repayment terms can be flexible. Favorable interest rates are available to businesses that undertake significant project investment, and/or create new jobs.

The nature and level of provincial support offered to a project is established by a detailed review of the proponent's business proposal, including a cost/benefit analysis and risk appraisal.

### **Program Objectives:**

The objective of the MIOP program is to secure significant business project investment which would not occur in Manitoba without the provision of some level of government assistance.

### **Program Performance and Trends:**

From March 31, 2000 to March 31, 2015 the MIOP program approved 50 business expansion loans totaling \$264 million, which levered \$570 million in additional capital, for a total Manitoban investment of \$834 million, supporting approximately 10,507 Manitoba jobs.

### THIRD-PARTY INVESTMENT FUNDS PROGRAM

The Third-Party Investment Funds Program provides investment capital to venture capital limited partnerships that are managed by the private sector, who in turn invest this capital in small to medium sized businesses. The funds under this program are mature funds that are in divestiture mode and are no longer making investments.

### **Program Objectives:**

- To create pools of capital that are managed in Manitoba and the capital is available to be invested in Manitoba businesses.
- Create jobs within Manitoba.
- Increase the flow of capital to Manitoba businesses.
- Earn a return on investment that exceeds the Province's cost of capital.

### **Program Performance and Trends:**

From its inception in 1996 to March 31, 2015, the Investment Program has advanced \$23.6 million in six limited partnerships.

Third Party Investment Funds Program equity investments net of repayments as published in Volume 3 of the Public Accounts as at March 31, 2015 are:

CentreStone Ventures Fund	3,408,522
Manitoba Science & Technology Fund	<u>1,830,917</u>
Total	5,239,439

From its inception in 1996 to March 31, 2015, in aggregate the limited partnerships in the Investment Program have invested approximately \$174.3 million (2013/14 - \$174.3 million and 2013/14 - \$174.3 million) into 78 business entities, of which 67 were Manitoba companies.

### MANITOBA PROVINCIAL NOMINEE PROGRAM FOR BUSINESS

The Province of Manitoba and Government of Canada share responsibilities regarding business people immigrating to Canada through the Manitoba Provincial Nominee Program for Business (MPNP-B). MPNP-B allows Manitoba to recruit and nominate qualified business people from around the world who have the intent and ability to move to Manitoba and establish or purchase a business or become partners in an existing business.

MPNP-B accelerates the immigration process by providing a Nomination Certificate to applicants under the program which allows for faster processing by the Government of Canada of their immigration application to Canada. The Province of Manitoba is committed to help new immigrants settle successfully, identify business opportunities and establish businesses or farms in the province.

### **Program Objectives:**

- Recruit immigrants who will contribute to the province's economy by living in Manitoba and investing in and operating a business in Manitoba.
- Recruit farmers through the Farm Strategic Recruitment Initiative to regional Manitoba to strengthen Manitoba's key agricultural sector.

### **Program Performance and Trends:**

In August 2013, the MPNP-B introduced a new process whereby potential applicants will have the opportunity to submit an Expression of Interest (EOI) as an indication of a desire to submit an application. All EOI submissions will be placed in an EOI pool and will be assessed based on a point system using an Adaptability Assessment Matrix. Potential applicants who had an Exploratory Visit Application (EVA) to MPNP-B prior to August 2013 were given priority in making a submission to the EOI system. As of March 31, 2015, all such EVA's had had the opportunity to make an EOI submission. On Feb. 4, 2015, the EOI online submission system was opened to the public.

In addition to the new EOI system, the MPNP-B increased the deposit amount of \$75,000 to \$100,000. A new non-refundable application processing fee of \$2,500 was introduced for new applications. The Young Farmer Nominee Program has been replaced by a Farm Strategic Recruitment Initiative to facilitate the recruitment of the most suitable farmer immigrants. The deposit amount under the FSRI is \$75,000.

MPNP-B has continued recruitment mission activity in various countries in the world such as the United Kingdom, South Africa, Vietnam, India, Namibia, Belgium, etc, which increases awareness of Manitoba as an immigration destination for foreign business immigrants. This increased awareness results in highly qualified immigrant business people making applications to the MPNP-B.

MPNP-B has been successful in recruiting 109 farm business immigrants since program inception who have invested \$102,183,744. The Program notes that the farm business investments recorded only include the initial investment. It does not account for additional investments made after the farm business is started. The farm business immigrants that were able to successfully establish their intended farm business quickly and successfully

demonstrated the necessary net worth, and practical farming skills and experiences that transfer directly to Manitoba's primary production farm industry.

The MPNP-B monitors initial business investments by business immigrants under the program.

### MANITOBA TRADE AND INVESTMENT

Manitoba Trade and Investment (MTI) is the lead provincial agency for international business development. MTI supports Manitoba businesses to become export capable and to diversify into domestic and international markets by delivering targeted programs and services to Manitoba small and medium sized enterprises (SMEs). MTI promotes Manitoba as a destination for foreign direct investment to increase inward investment and employment.

As an administrative mechanism, Manitoba Development Corporation supports Manitoba Trade and Investment in the facilitation of cost-sharing partnerships for specific projects and provides administrative support for missions by collecting revenues and paying related expenditures.

### **SERVICES:**

<u>Export counselling</u> – MTI staff engage in consultations with Manitoba companies interested in developing their exports. Export counselling focuses on the companies' markets of interest, market entry strategies and the companies' export capacity.

<u>In-market experience</u> – MTI staff and foreign representatives have over 550 years of combined international business experience and many of MTI's staff have lived / worked in the markets for which they are responsible. This experience enables them to provide first-hand knowledge of business practices, cultural considerations and consumer preferences and expectations.

<u>Market intelligence</u> – MTI staff combine their first hand knowledge with ongoing research and involvement with the markets to provide Manitoba companies with insight into their markets. MTI staff help Manitoba companies better understand the markets that they are pursuing.

<u>Financial programs</u> – MTI plays an active role in the delivery of the Commercialization Support for Business (CSB) Program. Stream 3 (Market Development) of the CSB Program supports qualified Manitoba small- to medium-sized enterprises with financial assistance to attend export oriented tradeshows and develop export focused marketing materials.

<u>Languages</u> – MTI and its foreign representatives can provide services in 17 languages; language capabilities include: English, French, Spanish, Mandarin, German, Portuguese, Hebrew, Russian, Hindi, Gujarati, Ukrainian, Dutch, Telugu, Malayalam, Bengali, Punjabi, and Japanese.

<u>Foreign Representatives</u> – MTI has augmented the expertise and experience of its staff with Foreign Trade Representatives in five markets (Brazil, China, Europe, India and Mexico). MTI's foreign representatives support Manitoba companies' market entry with in-country assistance. MTI continues to evaluate new markets as possible locations for new representatives.

<u>Promote Manitoba</u> – MTI staff promote the full range of Manitoba's capabilities internationally, including tourism, education, immigration, investment and trade.

<u>Missions and Tradeshows</u> – outbound missions include companies from multiple sectors targeting opportunities in another province or a foreign country and include a combination of joint networking opportunities and business-to-business meetings; incoming missions normally include a small number of companies from one market or one sector from a geographic region, that have one-on-one meetings with Manitoba companies who are potential partners / suppliers; tradeshows are sector specific marketing events in external markets where Manitoba

companies promote their products / services. Missions and tradeshows are integral components of MTI's delivery on its mandate. Each market is different and requires a unique approach – tradeshows work in some markets whereas missions are a better approach for another.

### INDEPENDENT AUDITORS' REPORT

To the Shareholder of Manitoba Development Corporation

We have audited the accompanying financial statements of Manitoba Development Corporation, which comprise the statement of financial position as at March 31, 2015, the statements of operations and accumulated surplus, changes in net financial assets and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Manitoba Development Corporation as at March 31, 2015, its results of operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

### Comparative Information

The financial statements as at and for the period ended March 31, 2014 were audited by another auditor who expressed an unmodified opinion on those financial statements on June 24, 2014.

### Other Matter

Our audit was made for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information in Schedules A to D are presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Notes to Financial Statements

Year ended March 31, 2015

### 1. Nature of operations and economic dependence:

The Manitoba Development Corporation (the "Corporation") provides loans, guarantees and investments under the Manitoba Development Corporation Act. The objectives of the Corporation are to provide financial services and financial instruments on behalf of the Province of Manitoba to assist with economic development initiatives. There are three divisions administered by the Corporation: Business Support, the Provincial Nominee Program for Business (PNP-B) and the Manitoba Trade and Investment Division (MTI). Business Support administers the Manitoba Industrial Opportunities Program (MIOP) and the Third-Party Investment Funds Program (Investment Program). The PNP-B is a program for international entrepreneurs who wish to immigrate and establish a business in Manitoba. MTI delivers targeted programs and services to Manitoba small and medium sized enterprises to promote Manitoba as a destination for foreign direct investment.

The Province provides all financing for these initiatives and ultimately bears all costs, including any exposure for the financial assets due to interest rate fluctuations, changes to their fair value or credit risk relating to the realization of these assets. Losses are the responsibility of the Province and are charged directly against advances received from the Province.

The Corporation considers its capital to comprise its accumulated surplus (including share capital, restricted surplus and retained earnings). There have been no changes to what the Corporation considers to be its capital since the previous period.

As a government enterprise, the Corporation's operations are reliant on revenues generated annually. The Corporation has accumulated retained earnings over its history, which is included in retained earnings in the statement of financial position. A portion of these accumulated funds is retained as working capital (current assets less current liabilities) which may be required from time to time due to timing delays in receiving its primary funding.

The Province of Manitoba has directed that the balance of restricted retained earnings for the year to be equal to three years' operating expenses of the Business Immigration and Investment Branch (based on the most recent year's actual expenses) plus 25 percent of the previous year's PNP-B forfeitures as a reserve which would not be available for annual distribution to the Province. Any excess beyond that amount, once it has been released by the Province, would then be transferred to unrestricted accumulated surplus. For the year ended March 31, 2015, the Corporation has complied with these restrictions.

### 2. Basis of presentation:

On April 1, 2014, Manitoba Development Corporation amalgamated with Economic Innovation and Technology Council and The Manitoba Trade and Investment Corporation. These financial statements have been prepared as though Manitoba Development Corporation, Economic Innovation and Technology Council and The Manitoba Trade and Investment Corporation had been combined since their inception. The financial statements have been prepared using the continuity of interest method of accounting whereby the assets and liabilities have been recorded at historical carrying values and the earnings and cash flows presented are those of Manitoba Development Corporation, Economic Innovation and Technology Council and The Manitoba Trade and Investment Corporation.

### 3. Significant accounting policies:

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles as defined by the Chartered Professional Accountants of Canada Public Sector Accounting Handbook.

### (a) Revenue recognition

Income from deposit retentions is recognized when depositors fail to meet their agreement terms thereby forfeiting their deposits. Interest income from portfolio investments and loans receivable is recognized on an accrual basis in the fiscal period in which it is earned.

### (b) Cash and cash equivalents:

Cash and cash equivalents include cash on hand, balances with banks and short-term deposits with the Province of Manitoba and banks with maturities of three months or less.

### (c) Financial instruments:

Financial instruments are recorded at fair value or exchange amount on initial recognition. Derivative instruments and equity instruments that are quoted in an active market are reported at fair value. All other financial instruments are subsequently recorded at cost or amortized cost unless management has elected to carry the instruments at fair value. The Corporation has not elected to carry any such group of financial instruments at fair value.

Notes to Financial Statements (continued)

Year ended March 31, 2015

### 3. Significant accounting policies (continued):

All financial assets are assessed for impairment on an annual basis. When a decline is determined to be other than temporary, the amount of the loss is reported in the statement of operations.

Transaction costs incurred on the acquisition of financial instruments measured subsequently at fair value are expensed as incurred. All other financial instruments are adjusted by transaction costs incurred on acquisition and financing costs, which are amortized using the effective interest rate method.

### (d) Loans receivable under Business Support:

The Corporation maintains an allowance for loan impairment, which reduces the carrying value of loans receivable to their estimated realizable amounts. Estimated realizable amounts are determined with reference to the Corporation's historical loss experience on similar loans and estimates and assumptions regarding current market conditions, customer analysis and historical payment trends. Interest on loans is recorded as income on an accrual bases except for loans considered impaired. When a loan is classified as impaired, accrual of interest on the loan ceases.

Provisions are established for individual loans for which the estimated realizable amount is less than the carrying value. The amount of initial impairment and any subsequent changes are recorded through the provision for doubtful loans receivable as an adjustment of the provision.

### (e) Portfolio investments.

Portfolio investments consist of provincial bonds, term deposits, guaranteed investment certificates (GIC's) and equity investments.

The Corporation's investment in provincial bonds are recorded at amortized cost. Discounts and premiums arising on the purchase of these bonds are amortized over the term of the bond to maturity. The Corporation's investment in GIC's and term deposits are recorded at cost.

The Corporation's equity investments related to share capital investments are recorded at cost. The Corporation's investment in the CentreStone Ventures Limited Partnership and Manitoba Science and Technology Fund are accounted for using the cost method of accounting.

Notes to Financial Statements (continued)

Year ended March 31, 2015

### 3. Significant accounting policies (continued):

When there has been a loss in value that is other than a temporary decline in value, the respective investment is written down to recognize the loss in the provision for decline in value of investments.

### (f) Restricted funds:

Restricted funds are deposits held under the PNP-B (note 9) and consist of balances with banks, provincial bonds and term deposits with maturities of three months or less held with the Province of Manitoba. The provincial bonds are recorded at amortized cost. Discounts and premiums arising on the purchase of these bonds are amortized over the term of the bond to maturity. Term deposits are recorded at cost.

### (g) Deferred revenue:

Deferred revenue represents funds received for specific projects for which expenditures will be incurred in future periods as well as fees received in advance of event days for specific trade projects.

### (h) Government transfers:

Government transfers are recognized as expenses in the period in which events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met, and reasonable estimates of the amounts can be made.

### (i) Contributed services:

During the year, the Province of Manitoba provided office space and other administrative services to the Corporation at no cost. Because of the difficulty of estimating the fair value of such expenses, no contributed services are recognized in the financial statements.

Notes to Financial Statements (continued)

Year ended March 31, 2015

### 3. Significant accounting policies (continued):

### (j) Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the period. Significant items subject to estimates and assumptions include the carrying amount of loans receivable and portfolio investments. Actual results could differ from those estimates.

### 5. Loans receivable managed for the Province of Manitoba (continued):

The Manitoba Industrial Opportunities Program (MIOP) provides flexible repayable financing to encourage companies to expand or locate in Manitoba. Loan principal is due as follows:

	2015	2014
2015	\$ -	\$ 3,159,037

Interest rates charged for Manitoba Industrial Opportunities Program loans are fixed in reference to the Corporation's cost of borrowing from the Province of Manitoba at the time of the first disbursement of the loan proceeds to the debtor. In some cases, per the terms of individual loan agreements, interest rates may be adjusted during the term of the loan based on the Corporation's cost of borrowing from the Province of Manitoba at a date(s) specified in the loan agreement. In certain cases, the Corporation, under the direction of the Province, may charge interest rates which are less than its cost of borrowing to encourage investment and job creation in Manitoba, but this has not happened since 2003. In other cases, the Corporation charges rates in excess of its cost of borrowing to reflect risk conditions. Interest rates charged on loans are as follows:

Year ended March 31, 2015

### 9. Restricted funds and deposits payable:

As at March 31, restricted funds held under the PNP-B and invested with a Schedule 1 chartered bank and the Province of Manitoba were as follows:

	2015	2014
Cash and cash equivalents with a chartered bank Amounts invested with the Minister of Finance	\$ 1,304,996 48,728,005	\$ 5,506,224 55,554,235
	\$50,033,001	\$ 61,060,459

Included within amounts invested with the Minister of Finance are provincial bonds with a carrying value of \$25,227,444 (2014 - \$50,822,863) with the remainder consisting of term deposits with maturities of three months or less held with the Province of Manitoba.

The provincial bonds bear interest at rates ranging from 2.45 percent to 5.50 percent (2014 - 4.30 percent to 5.50 percent) and mature between December 2015 and December 2019 (2014 - between December 2014 and March 2016).

Interest earned on provincial bonds for the year ended March 31, 2015 totaled \$1,928,592 (2014 - \$2,433,253). Amortization of bond premiums for the year ended March 31, 2015 totaled \$658,698 (2014 - \$899,003). Fair value of the provincial bonds at March 31, 2015 is \$25,862,350 (2014 - \$52,007,100).

As at March 31, deposits payable under the PNP-B were as follows:

	2015	2014
Deposits payable	\$ 50,033,001	\$ 61,060,459

The Corporation, Manitoba Jobs and the Economy and Labour and Immigration operate a program known as the Provincial Nominee Program for Business (PNP-B), which offers individuals who wish to immigrate to Manitoba to establish and operate a business the opportunity to obtain a nomination certificate. During the 2003 fiscal year, the Corporation began entering into agreements with qualified individuals whereby the immigrants commit to invest specified amounts to establish approved businesses in Manitoba within a specified period of time after landing in Canada.

Notes to Financial Statements (continued)

Year ended March 31, 2015

### 9. Restricted funds and deposits payable (continued):

As evidence of their commitment, upon approval the immigrants are required to deposit \$100,000 (or \$75,000 under the Farm Strategic Recruitment Initiative) with the Corporation prior to receiving the nomination certificate. These deposits are held by the Corporation and are refundable to the immigrants based on the satisfaction of the conditions set out in the agreements. The final decision as to admission to Canada for permanent residence is made by the Government of Canada. In the event that the nominees are not granted permanent residence visas by the Government of Canada, the Corporation also refunds the deposits. The Corporation invests the deposits, retains all interest income earned on the deposits and, should immigrants fail to satisfy the conditions of the agreements, the Corporation also has the right, under the agreements, to retain the deposits.

In 2014, a number of changes were introduced to the PNP-B. The deposit for the PNP-B was raised to \$100,000 from \$75,000. The Young Farmer Program was replaced by a Farm Strategic Recruitment Initiative (FSRI) which is a special rural economic initiative under the auspices of the PNP-B. Approved immigrants under the FSRI are required to deposit \$75,000 with the corporation. Under both the PNP-B and the FSRI, a non-refundable application processing fee of \$2,500 was introduced. Total application fees collected during the year were \$768,861 (2014 - \$19,178).

Actual deposits retained during the year amounted to \$11,701,130 (2014 - \$12,797,962) and are presented net of an allowance adjustment of \$75,000 (2014 - \$300,035). Net deposits retained are \$11,626,130 (2014 - \$12,497,927).

	\$ 7,042,000	\$ 5,296,000

### 13. Related party transactions:

The Corporation is related in terms of common ownership to all Province of Manitoba created departments, agencies and crown corporations. The Corporation enters into transactions with these entities in the normal course of business. These transactions are recorded at the exchange amount.

Notes to Financial Statements (continued)

Year ended March 31, 2015

### 14. Financial risks and concentration of risk:

### (i) Credit risk:

Credit risk is the risk that one party to a financial instruments fails to discharge an obligation and causes financial loss to another party. Financial instruments that potentially subject the Corporation to credit risk consist principally of cash and cash equivalents, portfolio investments, accounts receivable, loans receivable and trust funds.

The maximum exposure of the Corporation to credit risk at March 31 is:

	2	015	2014
Cash and cash equivalents Accounts receivable Loans receivable Portfolio investments Restricted funds	\$ 38,571, 497, 70,285, 20,079, 50,478,	936 541 729	25,426,323 1,019,108 72,433,240 25,245,619 61,389,918
	\$ 179,913,	038 \$	185,514,208

Cash and cash equivalents and restricted funds: the Corporation is not exposed to significant credit risk as the cash and cash equivalents and restricted funds are primarily held by the Minister of Finance and with a Schedule 1 Canadian chartered bank.

Accounts receivable, loans receivable and portfolio investments: the Corporation establishes an allowance that represents its estimate of potentially uncollectible loans and recoverable portfolio investments. The provision for doubtful loans receivable is determined with reference to the Corporation's historical loss experience on similar loans and management's estimates and assumptions regarding current market conditions, customer analysis and historical payment trends. These factors are considered when determining whether past due accounts are allowed for or written off. When there has been a loss in value that is other than a temporary decline in value, the respective investment is written down to recognize the loss in the provision for decline in value of estimates. Management of credit risk is an integral part of the Corporation's activities with careful monitoring and appropriate remedial actions being taken.

Management has determined that the allowance required for loans receivable as at March 31, 2015 is \$20,841,881 (2014 - \$21,118,392).

Notes to Financial Statements (continued)

Year ended March 31, 2015

### 14. Financial risks and concentration of risk (continued):

Management has determined that the allowance required for portfolio investments as at March 31, 2015 is \$5,239,440 (2014 - \$5,523,324).

### (ii) Interest rate risk:

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The interest rate exposure relates to term deposits with the Minister of Finance and a Schedule 1 Canadian chartered bank. The term deposits are interest bearing with short-term to maturity. As the term deposits are normally held to maturity, changes in interest rates do not affect their value.

### (iii) Liquidity risk:

Liquidity risk is the risk that the Corporation will not be able to meet its financial obligations as they come due.

The Corporation manages liquidity risk by maintaining adequate cash balances and by review from the Province of Manitoba to ensure adequate funding will be received to meet the obligations. Funds provided by the Province of Manitoba have a direct correlation to the loans receivable and equity investments as funds borrowed are used for these purposes. Funding is provided by the Province of Manitoba for the full amount of loans receivable and equity investments that are written off. Subsequently, the Corporation has minimal liquidity risk on its loans receivable and equity investments in respect of the funds provided by the Province of Manitoba.

### 15. Comparative information:
