Temporary Security Guard Licensing and Record Checks

Further to the information previously circulated to stakeholders, effective immediately the following additional temporary steps are being taken regarding security guard worker licensing:

- First time applicants may make submissions for a temporary security guard licence (six-month term) without including proof of registering in the mandatory security guard training program. This exemption will be in effect until further notice.
- If an individual seeking a new licence is able to declare that they ***do not have a criminal history or pending charges, and have not been listed on the Child Abuse Registry***, an employer may utilize them on an interim basis as a security guard while they are awaiting their licence.

This is dependent on the employer assisting the individual with compiling and submitting an electronic application package ***as soon as possible***. For specifics on submitting these applications, please see the information note posted on the program web page regarding the closure of our in-person service area at

https://www.gov.mb.ca/justice/commsafe/private/pubs/pisg_closure.pdf

Important: the employer must immediately remove individuals from acting as a security guard whose record checks return with pending charges, convictions or confirm placement on the Child Abuse Registry.

With in-person services being suspended/impacted as the response to Coronavirus/COVID-19 continues to evolve, applicants may encounter challenges when attempting to obtain the necessary record checks for licence applications.

As alternatives to in-person service, the following online criminal record check providers are accepted for licence application purposes.
