

## APPLICATION FOR LICENCE FOR INDUSTRIAL AUDIOMETRIC TECHNICIAN (LIAT)

Prerequisites to authorization can be found in the Workplace Safety and Health Regulation (Manitoba Regulation 217/2006), Section 12.9 [www.manitoba.ca/labour/safety/wshl.html](http://www.manitoba.ca/labour/safety/wshl.html)

### Summary of Requirements:

Individuals must successfully complete a course of study in industrial audiometry approved by the Director, courses should include theory and practicum. If no practicum is offered with the course, the applicant must receive hands on training in Manitoba as their practicum.

Also, an Audiologist practicing in Manitoba must endorse the applicant below, to confirm they know Manitoba's Regulations related to hearing testing, and can perform hearing tests.

The following courses are approved by the Director:

- Levitt-Safety (in Manitoba)
- Grant MacEwan University – Audiometric Technician Course (outside of MB)
- BCIT – Industrial Audiometric Technician Course (outside of MB)

To apply for LIAT, submit an application form to Manitoba Workplace Safety and Health for review. If accepted, a LIAT certificate will be sent by regular mail to the applicant once payment is processed.
