

Heavy Construction and Wage Schedule

The Construction Industry Wages Act, along with *The Employment Standards Code*, sets wages and working conditions on most Manitoba construction sites. The heavy construction sector has its own minimum standards and wage levels.

Heavy Construction Wage Schedule

Heavy Construction	Sept 1, 2025 to April 30, 2026	May 1, 2026 to April 30, 2027	May 1, 2027 or after
Mobile Crane Operator working on heavy construction	\$31.28	\$31.91	\$32.55
Heavy Duty Mechanic or Welder working on heavy equipment	\$30.26	\$30.86	\$31.48
Equipment Operator (Group I) - Asphalt Plant Operator, Concrete Batch Plant Operator; Operator of a dragline, clam shell, shovel, hydraulic excavator, wheeled excavator, pile driver, motor grader, asphalt paving machine, concrete paver, directional drill with locator, or other equipment requiring similar skills	\$27.09	\$27.63	\$28.18
Equipment Operator (Group II) - Operator of a dozer, track loader, rubber-tired loader, loader backhoe, scraper, milling machine or other equipment requiring similar skills	\$23.17	\$23.64	\$24.11
Equipment Operator (Group III) - Operator of an articulated rock truck, any type of compaction equipment, or other equipment requiring similar skills	\$19.22	\$19.60	\$19.99
Truck Operator (Group I) - Operator of a lowbed truck with 5 or more axles	\$26.00	\$26.52	\$27.05
Truck Operator (Group II) - Operator of a truck with 4 or more axles, fuel truck, distribution truck, hydrovac truck or truck with hydraulic boom or hoist	\$24.42	\$24.91	\$25.41

Truck Operator (Group III) - Operator of a truck having a gross vehicle weight of more than 4,540 kgs and fewer than 4 axles	\$21.07	\$21.49	\$21.92
Skilled Labour (Group I) - Concrete Finisher, Pipelayer, Screedman or other employee who performs work requiring similar skills	\$27.12	\$27.66	\$28.21
Skilled Labour (Group II) - Concrete Finisher Helper, Pipelayer Helper, Pipe Fuser, Cable Splicer, Traffic Coordinator, Lead Hand or other employee who performs work requiring similar skills	\$21.40	\$21.83	\$22.26
General Labourer in heavy construction sector and not otherwise classified	\$18.11	\$18.47	\$18.84
Watcher, Flagger or Rodman	\$16.66	\$17.00	\$17.34

What types of heavy construction sector activities are covered by these standards?

Activities that fall under heavy construction include:

- Construction of highways and roads
- Some types of snow removal
- Transportation of materials such as rock, gravel, earth, and soil
- Repair and maintenance of heavy construction equipment
- Demolition of any building or structure
- Construction and maintenance of transmission lines

This is not a complete list. Employers and employees who need more information should see the Heavy Construction Wage Schedule or contact Employment Standards directly.

What is the minimum wage in the heavy construction sector?

The minimum wage depends on employees' job classifications. The classifications and wage rates can be found on the Heavy Construction Wage Schedule.

Are the minimum wages for heavy construction the same for all projects across Manitoba?

Yes. There are 10 job classifications in the heavy sector and each has its own minimum wage. These minimum wages apply to all heavy construction projects in Manitoba.

When must employees in the construction industry be paid?

Employees who work in the construction industry must be paid within 5 days after the end of the pay period.

If employment has ended, the employee must be paid all wages owed within 10 working days after the date of termination or within 5 working days after the end of the pay period, whichever is less.

What are the hours of work and overtime rules for employees in the heavy construction sector?

The standard hours of work in the heavy sector are:

- 50 per week hours outside of Winnipeg
- 50 per week hours in Winnipeg from April 1 to October 31
- 48 per week hours in Winnipeg from November 1 to March 31 in the following year

All hours worked above the standard hours must be paid at the overtime rate of 1 ½ times the regular wage.

How is the termination of employment handled in the construction industry?

Employees and employers in all sectors of construction (i.e., employees performing construction labour) can terminate employment at any time without notice. No notice is required by either party regardless of the number of years they have worked together.

Those working in construction offices, salespeople, or administrative staff (i.e., employees not performing construction labour) would still require notice of termination.

How are general holidays paid in the construction industry?

Unlike employees in other industries, construction employees earn 4% general holiday wages in every pay period on all regular earnings, including vacation wages but not overtime wages.

Employers can include the general holiday pay on every cheque or pay it all out at the end of the year.

Construction employees who work on a general holiday are entitled to the overtime wage rate (1 ½ times their regular wage rate) for all hours worked on the general holiday. These earnings are not included in the calculation for general holiday wages.

What are the general holidays in Manitoba?

There are nine general holidays throughout the year:

- New Year's Day
- Louis Riel Day (3rd Monday in February)
- Good Friday
- Victoria Day
- July 1 (Canada Day)
- Labour Day
- Orange Shirt Day (National Day for Truth and Reconciliation)
- Thanksgiving Day
- Christmas Day

Most employees are paid general holiday pay for these days whether they work or not.

General Holiday	2025	2026	2027
New Year's Day	January 1	January 1	January 1
Louis Riel Day	February 17	February 16	February 15
Good Friday	April 18	April 3	March 26
Victoria Day	May 19	May 18	May 24
July 1 (Canada Day)	July 1	July 1	July 1
Labour Day	September 1	September 7	September 6
Orange Shirt Day	September 30	September 30	September 30
Thanksgiving Day	October 13	October 12	October 11
Christmas Day	December 25	December 25	December 25

When are construction employees paid for general holidays?

Construction employees must be paid all general holiday pay by the end of the year. Some employers add general holiday pay to every cheque or in smaller amounts throughout the year, while others pay it all at the end of the year. Employees who are not sure how they are being paid for general holidays should ask their employers.

Do construction employees have to work on the general holiday to get general holiday pay?

Construction employees earn general holiday pay at 4% of their gross regular wages. They receive this pay even if they never work on a general holiday.

For example: if employees work from June 1 to June 30, a period where there is not a general holiday, they would still receive 4% of their regular earnings as general holiday pay.

If an employee works on a general holiday, they must be paid 1 ½ times their regular wage for all hours worked on that day.

Can employers pay vacation and general holiday wages together?

Employers in the construction industry can pay employees for their vacations and general holidays once a year, on every cheque, or in smaller amounts throughout the year.

For vacation pay, employees earn 2% of their total gross wages for each week of vacation. Employees with less than five years of service with the same employer are entitled to two weeks' vacation and receive 4% of their regular wages for vacation pay. Employees with at least five years with the same employer get three weeks' vacation and earn 6% as vacation pay.

For general holidays, the employee receives 4% general holiday pay.

For example: a construction employee who is entitled to two weeks' vacation and earns \$10,000 in wages (not including overtime) would receive \$400 vacation pay and \$416 general holiday pay.

Total gross regular wages (excluding overtime)	\$10,000
Vacation allowance	$(\$10,000 \times 4\%) + 400$
Subtotal	\$10,400
General holiday pay	$(\$10,400 \times 4\%) + 416$
Total pay	\$10,816

If the construction employee completes five years with the same employer, the vacation allowance increases to 6% ($\$10,000 \times 6\%$).

More information can be found on the [Vacations & Vacation Pay](#) and the [General Holidays](#) fact sheets.

What rights and responsibilities are the same for employers and employees in construction as in other industries?

Most parts of *The Employment Standards Code*, which establishes the rights and responsibilities of most employees in Manitoba, also applies to employers and employees in construction, including:

- [Unpaid Leaves](#)
- [Vacations & Vacation Pay](#)
- [Deductions from Wages](#)
- [Wages for Reporting to Work](#)

See those fact sheets for more information.
