

## Notice of Environment Act Proposal

Manitoba Sustainable Development has received a proposal pursuant to *The Environment Act* regarding the following operation and invites public participation in the review process:

### **HUDSON BAY MINING AND SMELTING CO., LIMITED - ANDERSON TAILINGS IMPOUNDMENT AREA EXPANSION – FILE: 1644.10**

A proposal was filed on behalf of Hudson Bay Mining and Smelting Co., Limited for the expansion of the existing Anderson Tailings Impoundment Area (Anderson TIA), located in the Snow Lake mining district southeast of the Town of Snow Lake. The purpose of the Anderson TIA is for the environmental management of mine tailings produced at the Stall Lake Concentrator. The proposed expansion to the Anderson TIA will occur in three stages over a period of approximately ten years and will include the construction of new water retention dams, improvement of the existing Anderson Dam, a replacement spillway and the gradual inundation of shoreline areas directly adjacent to the existing impoundment area, resulting in an increase to the total operating water level. The Anderson TIA discharges during the open-water season to Anderson Creek which flows into Anderson Bay of Wekusko Lake.

**Anyone likely to be affected by the above operation and who wishes to make a representation either for or against the proposal should contact the Department, in writing or by E-mail ([jennifer.winsor@gov.mb.ca](mailto:jennifer.winsor@gov.mb.ca)), not later than OCTOBER 11, 2016.
