**Subject:** Notice of Alteration Conditional Approval to use the Treatment Pond

[REDACTED]

Good morning Dave;

Thank you for your email dated July 31, 2026, requesting approval to use the treatment pond within the central hazardous waste management facility, known as Miller Environmental Corporation (Miller) located on portions of NE 2-3-1 EPM within the Rural Municipality of Montcalm, Manitoba. The email included hydraulic conductivity test results for the treatment pond, which were prepared and submitted by WSP on behalf of Miller.

Based on the review of the submitted information and in accordance with clause 45 of the licence and clause 6 of the October 15, 2021 notice of alteration approval, I am granting interim approval for the operation and use of the treatment pond, subject to compliance with all terms, conditions, specifications, and limits outlined in the licence, July 3, 2026 notice of alteration approval, October 16, 2024 notice of alteration approval and October 15, 2021 notice of alteration approval.

Please note that this is an interim approval. You will be required to obtain a final approval , to use the facility per condition 4(h) of the October 15, 2021 notice of alteration approval. The department is yet to receive a QA/QC report for the entire liner installation and if our review of the report identifies any deficiencies, you will be required to rectify them. A final approval to use the facility will be issued once it is determined that the QA/QC report has met the licence and the notice of alteration approval requirements. This interim approval will be posted on the Public Registry.

If you have any questions concerning this approval, please do not hesitate to contact me.

Thank you.

Regards,
