Re: Application for a DGHTA license to include Household Hazardous waste collection of Class 2. Compressed Gas Cylinders (single use under 5kg) to encompass the Manipogo Provincial Park.

The Manipogo Provincial Park plans to collect Class 2 Compressed Gas (Propane) Cylinders (single use under 5kg) left behind by campers within Manipogo Park. As per the DGHTA act we are requesting a DGHTA license for the collection and storage of the Household Hazardous Waste stewardship material at the maintenance yard site located within the Park on or at Manipogo Beach Road. See attached illustration on the accompanying map.

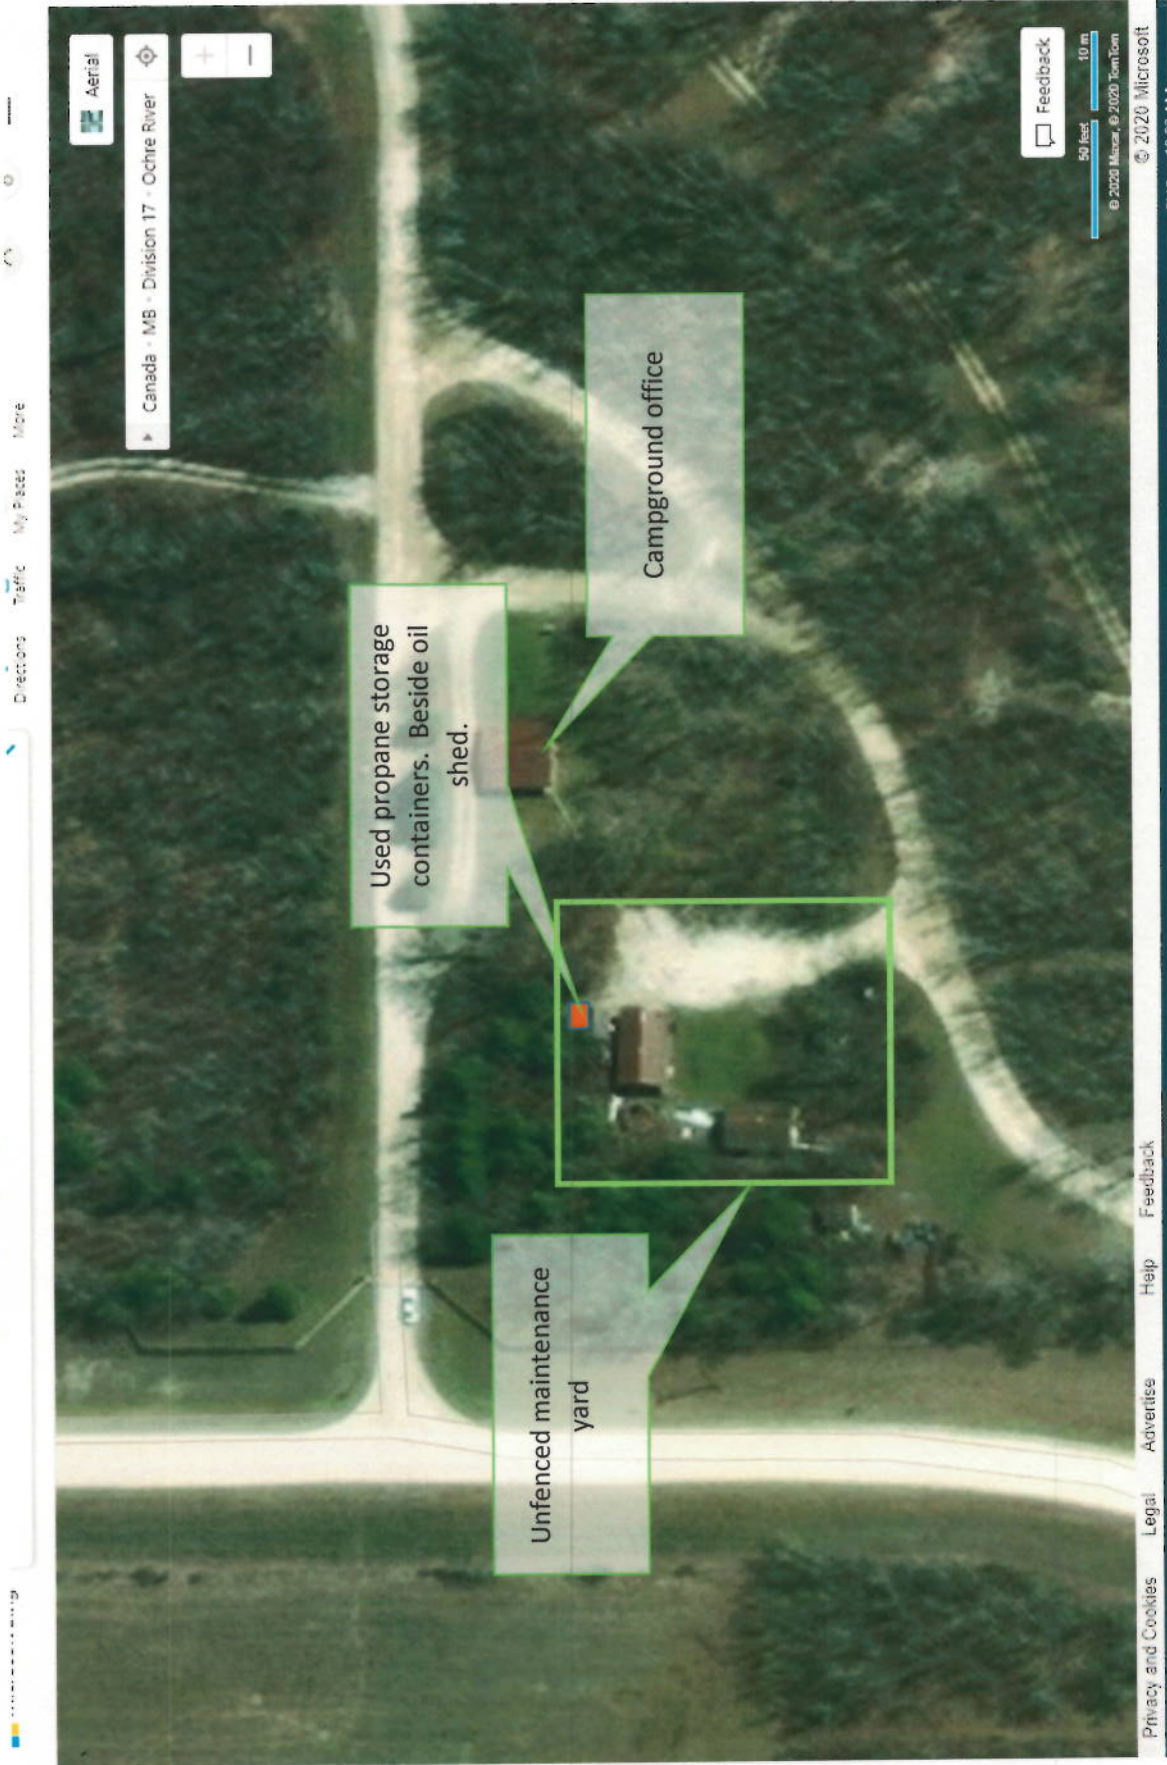

The collection site will operate in accordance with the Product Care Association (PCA) Manitoba Household Hazardous Waste Stewardship Program and the Manitoba Product Care Collection Site Guidelines and regulations. The site will handle household hazardous waste falling under the Transportation of Dangerous Goods Act Class 2. The estimated quantity is included on the attached Hazardous Waste Generator Registration Form.

Should you have any questions or require additional information, please feel free to contact the undersigned at:

Yours truly,

Kim Duncan
Park District Manager
