Dear Mr. Gill:

**Re: Subsurface Investigation: Sink Hole Location in the Parking Lot of the Former
Sutherland Avenue Manufactured Gas Plant Site, in Winnipeg, Manitoba**

Thank you for the submission of the above mentioned Report, dated January, 2011, prepared by AECOM. The Report documents a subsurface investigation to delineate a deposit of coal tar encountered in a sinkhole in the parking lot near the corner of Annabella Street and Rover Avenue.

The Report states that based on the findings of this investigation a Remedial Action Plan (RAP) will be submitted to solely address the coal tar deposit as other on site impacts have been addressed in the Comprehensive Environmental Management Plan. Manitoba Conservation concurs with this plan of action.

Before any further work is completed, please forward the RAP to this office, at the address above.

Yours truly,

Andrea Bacler, B. Env. Sc. (Hons.)
Environment Officer, Contaminated Sites/Petroleum Storage
